

***The plunder of BlueFin Tuna in the Mediterranean & East
Atlantic during 2006 and 2007.***

Update April-2008

***NEW EVIDENCE POINTS TO SPAIN UNDERREPORTING
BLUEFIN TUNA CATCHES IN 2006 & 2007***

Index

Foreword

A preliminary estimation of BlueFin Tuna catches by Spain during 2006, based on Spain's officially reported imports and exports of live and processed BFT.

A preliminary estimation of BlueFin Tuna catches by Spain during 2006 based on Spain's 2006 latest BFT catch reporting to ICCAT SCRS

BFT Purse Seine (PS) catches by the Spanish Purse Seine Fishing Vessels operating inside the Mediterranean Sea, reported for 2006 by Spain

BFT Catches by the Basque & Gulf of Biscay BB fishing fleet, reported for 2006 by Spain

BFT Catches by the Spanish Canary Island BB fishing fleet operating in the Canary Island and Moroccan fishing grounds, reported for 2006 by Spain

Other BFT Catches in the North East Atlantic by Spanish BB and LL fishing vessel operating South of Spain (Gibraltar / Gulf of Cadiz fishing Grounds and West of Portugal's coast), reported for 2006 by Spain

BFT Trap Catches by the Spanish BFT Trap-Set-Nets operative in the Atlantic South West coast of Spain, reported for 2006 by Spain

BFT catches by the Spanish Long Line Fishing Vessels operating inside the Mediterranean Sea, reported for 2006 by Spain

A refined estimation of BlueFin Tuna catches by Spain during 2006 based on Spain's 2006 latest BFT catch reporting to ICCAT SCRS and Spain's 2006 officially reported imports & exports of live & processed BFT

An estimation of BlueFin Tuna Catches by Spain during 2007

A preliminary estimation of BlueFin Tuna catches by Spain during 2007, based on Spain's officially reported imports and exports of live and processed BFT

A refined estimation of BlueFin Tuna catches by Spain during 2007 based on Spain's 2007 latest BFT catch reporting and Spain's 2007 officially reported imports & exports of live & processed BFT

Conclusions

Methodology

Additional Notes

Foreword

Advanced Tuna Ranching Technologies, SL. (ATRT) published, during the first week of October 2007, a bi-annual report (2006-2007) entitled: ***The plunder of BlueFin Tuna in the Mediterranean & East Atlantic during 2006 and 2007.***¹ Since its publication, various NGOs have reacted to part and/or the entirety of the contents of the stated report.

In turn, the Spanish Fisheries Authority² (by way of written statements dated November 6th and 14th 2007³, circulated in European Commission circles and press) has cavalierly questioned the validity of ATRT's BlueFin Tuna (BFT) trade-catch analysis and calculation methodology, discredited the truthfulness of its reporting, and shed doubts on the level of its authors' "*precise knowledge of the BlueFin Tuna management reality*".

ATRT strongly dismisses these assertions, refutes Spain's officially underreported BFT trade-catch figures and can only advise the Spanish Fisheries Authority to revisit Chapter 2.2 of ATRT's report⁴, to fully understand the methodology employed.

In that report, ATRT cited provisional 2006 BFT catch figures reported by Spain on September 25th 2007 to SCRS. According to those figures, Spain declared a total catch of **4.721.500,00 Kgs.** of BFT during 2006, of which:

- **2.032.508,00 Kgs.** of BFT in the North East Atlantic,
- **2.688.992,00 Kgs.** of BFT in the Mediterranean Sea.

No breakdown per fishing gear was provided by Spain at the time – with the exception of **73.000 Kgs.**, declared as the entire BFT catch by Spanish Bait-Boats (BB) in the North East Atlantic.⁵

Since the publication first week of October 2007, of ATRT's bi-annual report (2006-2007): ***The plunder of BlueFin Tuna in the Mediterranean & East Atlantic during 2006 and 2007***, new information on Spain's 2006 BFT catch has come to light.

Spain has surrendered detailed BFT and BigEye Tuna (BET) catch reports – by fishing gear and fishing region, as contained in ICCAT's SCRS Task I updated database.⁶

Furthermore, ICCAT-Antalya-Turkey's 20th Meeting has approved 2006 BFT Trade and landing data relating to Contracting Parties submitted under Recommendation 06-13.⁷

The Spanish Fisheries Authority has revealed, in its written statement dated November 6th 2007, important information pertaining to Spain's imports of live-BFT from France and Italy during 2005 and 2006. Such information was not and still not available neither on EUROSTAT Database nor on any ICCAT report.

Furthermore, Japan has published its 2007 Q1+Q2 and Q3+Q4 bi-annual reports.⁸

¹ The full ATRT report can be downloaded at www.atuna.com

² Secretaria General de Pesca Maritima, Direccion General de Recursos Pesqueros, Subdireccion General de Asuntos Comunitarios.

³ See Ref. Docs 001 & 002.

⁴ Such Chapter is reproduced in extensor herein and after. See 5. Methodology.

⁵ Such total tonnage for BB BFT catches was in sharp contrast with ample press and industry reports clearly showing that the 2006 BFT BB total catches by the Basque BB fishing fleet almost reached the 1.000 Tm mark.

⁶ See Table 1, Page 3 of this document: BlueFin Tuna Catches by Spain during 2006 as reported by Spain to ICCAT SCRS

⁷ See Table 11a Doc. No. COC-302/2007, Ref. Doc. 003.

⁸ Source: Bi-annual Reports of Data collected under the ICCAT Statistical Document Programs – First half & second half year 2007 – Japan. ICCAT Circulars 1951/07 & 500/08. See Ref. Doc. 025 & Ref. Doc. 026.

Yet and more importantly, purported general fishing under-reporting and/or non-reporting by Spain has been heavily denounced by the EU Luxembourg-based Court of Auditors (EU CA).⁹

In its Special Report No 7/2007 (pursuant to Article 248(4) second paragraph, EC) on the control, inspection and sanction systems relating to the rules on conservation of Community fisheries resources, the EU Court of Auditors states:

- *“In Spain none of the catches by vessels under 10 metres in length were taken into account by quota monitoring, even though such vessels account for a substantial part of the national fleet;*
- *In Spain monitoring of quota uptake was based on one type of document only;*
- *In Spain ... the sales notes for frozen produce were not recorded, even though the quantities they represented were very substantial;*
- *In Spain, ... there were no systems for checking the serial numbers of declaration documents in order to ensure that the series was complete;*
- *In ... Spain the landing declaration and sales note data were cross-checked only if there was a physical inspection;*
- *In Spain, for 2005, the data declared to the Directorate-General for Fisheries and Maritime Affairs (DG Fish) for landings by Spanish ships in Spain are approximately 40 % less than the data recorded in the national databases; (262,900.00 against 431,900.00 tonnes, a difference of 169,000.00 tonnes). The Spanish authorities have acknowledged the omissions in declarations to DG Fish as around 148 500 tonnes relating to species not subject to quota, and were unable to provide explanations for the other 20 500 tonnes to make up the difference;*
- *In Spain, work carried out in 2003 by the national authorities assessed the required number of inspectors as 139, whereas in 2006 the figure was 91;*
- *In Spain, ... , the inspectors did not all have direct access to catch and/or VMS data from their operational bases.”*

The details of Spain's latest 2006 BFT catch and trade reporting to ICCAT and SCRS therefore deserve a more refined and specific analysis, thus an update of previously published figures for 2006 and 2007.

Such updated analysis is contained in the following document, the conclusions of which corroborate in excess the findings of ATRT's original report ***The plunder of BlueFin Tuna in the Mediterranean & East Atlantic during 2006 and 2007*** published in October 2007.

In view of the evidences contained herein, reinforcing the case for the strong mismatch between catch and trade data on BFT uncovered by ATRT for 2006¹⁰, it is legitimate to formally request that both the Spanish Government and the European Commission, carry-out an urgent investigation to clarify once and for all the issue.

This is all the more important as BFT is a species in high danger of stock collapse according to ICCAT-SCRS itself.

⁹ Special Report No 7/2007 (pursuant to Article 248(4) second paragraph, EC) on the control, inspection and sanction systems relating to the rules on conservation of Community fisheries resources together with the Commission's replies. European Court of Auditors, published on December 2007. See Ref. Doc. 027.

¹⁰ See ATRT's original report ***The plunder of BlueFin Tuna in the Mediterranean & East Atlantic during 2006 and 2007*** published in October 2007. The full ATRT report can be downloaded at http://www.illegal-fishing.info/item_single.php?item=document&item_id=243&approach_id=21

1. A preliminary estimation of BlueFin Tuna catches by Spain during 2006, based on Spain's officially reported imports and exports of live and processed BFT.

Total catch figures reported by Spain to ICCAT-SCRS for 2006 are in total contradiction with Spain's reported processed BlueFin Tuna Exports during that same year, computed as explained in Chapter 5: **Methodology**, of this document.

Total North East Atlantic						2.688.992,00
Total						4.721.500,00

Table 1: BlueFin Tuna Catches by Spain during 2006 as reported by Spain to ICCAT SCRS.

Total catch figures reported by Spain to ICCAT-SCRS for 2006 are also in total contradiction with Spain's reported processed BlueFin Tuna Exports during that same year, computed as explained in Chapter 5: **Methodology**, of this document.

Spain's reported processed BlueFin Tuna exports during 2006 are detailed in Tables 2. A, B, C, D, E, F, G, H, I, J & K.

According to such data Spain would have exported in 2006 a total of **8.913.493,35 Kgs.** of processed BFT corresponding to an equivalent of no less than \approx **9.122.663,91 Kgs.** (W/RW) of live-tuna, of which:

- **4.032.254,00 Kgs.**, corresponding to \approx **3.779.605,74 Kgs.** (W/RW) of purse seined and ranched BFT, would have been exported during the period January to June 2006, therefore fully attributable to catches having taken place during the 2005 fishing season, ranched during Q3+Q4 2005 and slaughtered during Q1+Q2 2006.
 - **394.385,00 Kgs.** of such PS BFT, corresponding to \approx **333.662,03 Kgs.** (W/RW) of 2005 Spanish purse seined and Turkish ranched BFT, would have been re-exported from Antalya, Turkey, during Q1+Q2 2006.
 - **1.140.715,00 Kgs.** of such PS BFT, corresponding to \approx **989.283,54 Kgs.** (W/RW) of 2005 Spanish purse seined and Italian ranched BFT, would have been re-exported from Sicily, Italy, during Q1+Q2 2006.
 - **2.497.145,00 Kgs.** of such PS BFT, corresponding to \approx **2.456.660,17 Kgs.** (W/RW) of 2005 purse seined and ranched BFT, would have been directly exported from Spain, during Q1+Q2 2006.

According to Japan's 2005 Q3+Q4 bi-annual report, Spain directly exported to that country, some **906.068,00 Kgs.** of processed ranched BFT, corresponding to \approx **1.142.347,12 Kgs.** (W/RW) of BFT caught during the 2005 fishing season, ranched and slaughtered during Q3+Q4 2005.

Spain Tuna ranches' total 2005 recorded exported production would have therefore amounted to:

$$\begin{aligned} & \mathbf{906.068,00\ Kgs.} \text{ of processed ranched BFT (Q3+Q4 2005)} \\ + & \mathbf{2.497.145,00\ Kgs.} \text{ of processed ranched BFT (Q1+Q2 2006)} \\ \hline = & \mathbf{3.403.213,00\ Kgs.} \text{ of processed ranched BFT} \end{aligned}$$

Corresponding to:

$$\begin{aligned} & \mathbf{\approx 1.142.347,12\ Kgs.} \text{ (W/RW) (Q3+Q4 2005)} \\ + & \mathbf{\approx 2.456.660,17\ Kgs.} \text{ (W/RW) (Q1+Q2 2006)} \\ \hline = & \mathbf{\approx 3.599.007,29\ Kgs.} \text{ (W/RW)} \end{aligned}$$

As stated in **Chapter 2** of this document, some \approx **4.511.000,00 Kgs.** (W/RW) of live BFT were inputted into Spanish tuna ranches during 2005, according to ATRT estimates.

According to Spain's Fisheries Authority recently released data, some \approx **4.846.500,00 Kgs.** (W/RW) of live BFT were inputted into Spanish tuna ranches during 2005.

We choose to retain such official data as valid, thus implying that some \approx **1.247.492,71 Kgs.** (W/RW) corresponding to:

$$\begin{aligned} & \mathbf{\approx 4.846.500,00\ Kgs.} \text{ (W/RW) of live BFT officially inputted into} \\ & \text{Spanish tuna ranches during 2005.} \\ - & \mathbf{\approx 3.599.007,29\ Kgs.} \text{ (W/RW) total 2005 recorded exported} \\ & \text{production} \\ \hline = & \mathbf{\approx 1.247.492,71\ Kgs.} \text{ (W/RW)} \end{aligned}$$

have:

- Either been over-carried to Q3+Q4 2006, though according to Industry sources, no such carry-over of live-BFT took place at any of Spain's Tuna ranches;
- Either slaughtered, processed, locally marketed and/or exported to other countries than Japan during Q1+Q2 2006;

- Both.

In any event we have chosen to compute such \approx **1.247.492,71 Kgs.** (W/RW) of live-BFT corresponding to a maximum **1.478.278,86 Kgs.** of RD ranched processed BFT¹¹ as having been fully caught during 2005 and exported during Q1+Q2 2006.

- Therefore, out of the remaining **4.881.248,35 Kgs.**, corresponding to \approx **5.343.058,17 Kgs.** (W/RW) of BFT, exported during 2006, only **3.402.969,49 Kgs.**, corresponding to \approx **4.095.565,46 Kgs.** (W/RW) of BFT, would be fully attributable to catches having effectively taken place during the 2006 fishing season.

745.930,50 Kgs., corresponding to \approx **717.764,29 Kgs.** (W/RW) of purse seined and ranched BFT, would have been directly exported from Spain during the period July to December 2006 and therefore are fully attributable to catches having taken place during the 2006 fishing season, ranched and slaughtered during Q4 2006.

According to Japan and USA's Q3+Q4 2006 bi-annual reports, the origin (Fishing & Primary Exporting Country) of all exported **745.930,50 Kgs.** PS BFT is Spain.

Yet and according to Spain's Fisheries Authority recently released data, **2.712.914,00 Kgs.** (W/RW) of live BFT were inputted into Spanish tuna ranches during 2006, of which **1.288.989,00 Kgs.** (W/RW) were caught by Spanish flagged Tuna PS vessels, operative during the 2006 Summer fishing season in the Balearic Islands fishing grounds. The rest was again imported live from France and Italy.

It is therefore safer to state that Spain would have exported, during Q3+Q4 2006 and Q1+Q2 2007, the equivalent W/RW of **1.288.989,00 Kgs.** of ranched BFT fully attributable to catches by Spanish BFT PS vessels, having taken place during the 2006 fishing season. By taking into account both what has been previously stated and BFT trade figures contained in Tables 2.A. to 2.K.¹², Spain would have therefore exported the W/RW equivalent of **6.127.045,38 Kgs.** of BFT fully caught during 2006, as detailed hereinafter.

+ 1.288.989,00 Kgs.	(W/RW equivalent) Ranched	PS	MED	BFT
+ 213.160,38 Kgs.	(W/RW equivalent) Wild	PS	MED	BFT
+ 120.523,41 Kgs.	(W/RW equivalent) Wild	LL	MED	BFT
+ 20.948,75 Kgs.	(W/RW equivalent) Wild	OT	MED	BFT
+ 14.571,25 Kgs.	(W/RW equivalent) Wild	TRAP	MED	BFT
+ 498,75 Kgs.	(W/RW equivalent) Wild	UNCL	MED	BFT
+ 4.735,00 Kgs.	(W/RW equivalent) Wild	BB	EA	BFT
+ 6.949,73 Kgs.	(W/RW equivalent) Wild	LL	EA	BFT
+ 1.370,00 Kgs.	(W/RW equivalent) Wild	RR	EA	BFT
+ 857.502,03 Kgs.	(W/RW equivalent) Wild	TRAP	EA	BFT
+ 421,08 Kgs.	(W/RW equivalent) Wild	UNCL	EA	BFT
+ 3.597.376,00 Kgs.*	(W/RW equivalent) Wild	N/A	MED+EA	BFT ¹³¹⁴
- 1.247.492,71 Kgs.	(W/RW equivalent) 2005 "carry-over" to Q3+Q4 2006?			

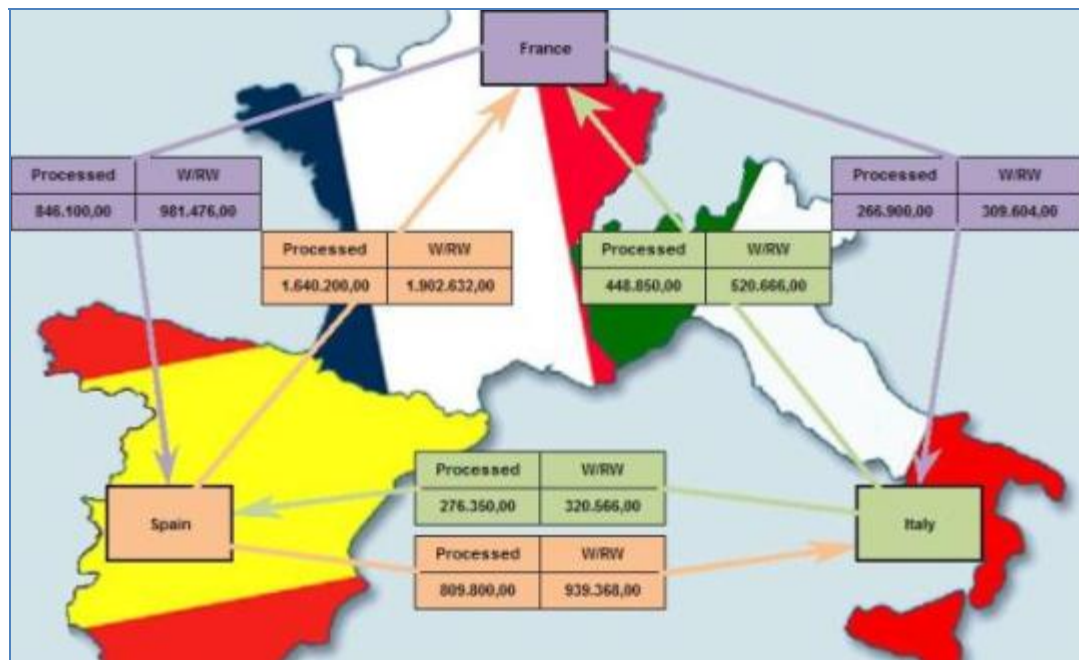

= 4.879.552,67 Kgs.	(W/RW equivalent) Wild	ALL	MED+EA	BFT

¹¹ Fattening coefficient applied being 1,185.

¹² Exports by area and gear as reported in the following ICCAT Biannual Reports: ICCAT Circular 1776-06 by Korea; ICCAT Circular 1847-06 by Japan; ICCAT Circular 1929-06 by the EU; ICCAT Circular 2096-06 by Thailand; ICCAT Circular 2157-06 by the USA; ICCAT Circular 0025-07 by Turkey; ICCAT Circular 0228-07 by Croatia; ICCAT Circular 0239-07 by Tunisia; ICCAT Circular 0382-07 by Croatia; ICCAT Circular 0430-07 by Morocco; ICCAT Circular 0541-07 by the USA; ICCAT Circular 0614-07 by the EU; ICCAT Circular 0627-07 by Japan; ICCAT Circular 0630-07, by Thailand; ICCAT Circular 1040-07 by Turkey; ICCAT Circular 1089-07 by Korea.

¹³ It can be safely assumed that the bulk of these **3.597.376,00 Kgs.**, fully exported to countries other than Japan and the USA, cannot be ranched BFT, as the price in these export markets cannot compete with that obtained in the Japanese market. All ranched BFT with the exception of a tiny percentage is exported to Japan, as clearly demonstrated for Spain's 2005 Tuna ranch production and exports.

¹⁴ Trade recorded in EUROSTAT under Taric codes 03023500, 03023510, 03023590, 03034500, 03034500, 03034511, 03034513, 03034519, 03034590, 0304103860, 0304109850, 0304204510, 0304909770 and importing countries: Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Finland, France, Germany, Greece, Guinea, Hungary, Ireland, Israel, Italy, Kuwait, Latvia, Libya, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovenia, Russia, Slovakia, Switzerland, Sweden, Romania, Spain, Thailand, United Arab Emirates and United Kingdom. No gear or area is specified.

Picture 1.: Flow of processed BFT import/export during 2006 among the three most important BFT fishing EU member states: Spain, France & Italy. Source: EUROSTAT.

* EUROSTAT BFT trade figures for 2006 (**3.597.376,00 Kgs.**) nevertheless do not differentiate between exports and re-exports of BFT. This is specially true and relevant for BFT trade between the three most important BFT fishing EU member states: Spain, France & Italy; totalling a combined 2006 EU TAC of **17.328.000,00 Kgs. (94,68%)** of the EU 2006 ICCAT Quota of **18.301.000,00 Kgs.** Based on EUROSTAT 2006 BFT trade figures the flow of such imports/exports can be seen in Picture: 1. Previous page.

According to EUROSTAT 2006 BFT trade figures for and between Spain, France and Italy, the total flow of BFT exports (Excl. F&FR BFT FL, L and OT) by and between these three countries amounted to **4.288.200,00 Kgs.** of processed BFT equivalent to **4.974.312,00 Kgs. (W/RW)**; that is **28,71%** of their combined 2006 EU TAC of **17.328.000,00 Kgs.**

Spain is by far the leading exporting/re-exporting country (Excl. F&FR BFT FL, L and OT) with **2.450.000,00 Kgs.** of processed BFT equivalent to **2.842.000,00 Kgs. (W/RW)** having been exported/re-exported to France and Italy during 2006.

In terms of fully detectable exports (FDE), that is: $FDE = TE - TI^{15}$, Spain is by far the only net exporting country (Excl. F&FR BFT FL, L and OT) with **1.327.550,00 Kgs.** of processed BFT equivalent to **1.539.958,00 Kgs. (W/RW)** having been fully exported to France and Italy during 2006.

As stated previously, Spain exported the W/RW equivalent of **4.879.552,67 Kgs.** of BFT (Incl. F&FR BFT FL, L and OT) caught during 2006.

Since EUROSTAT total figure (**3.597.376,00 Kgs. W/RW**) for Spain's 2006 BFT exports, do not differentiate between exports and re-exports, we choose to also input Spain's previously calculated 2006 FDE amounting to **1.539.958,00 Kgs. (W/RW)** in order to calculate Spain's 2006 caught & exported BFT range.

Spanish fishing vessels would have therefore theoretically caught and exported a minimum of **2.822.134,67 Kgs. (W/RW)** and a maximum of **4.879.552,67 Kgs. (W/RW)** of processed BFT during 2006, entirely caught, landed and/or ranched in Spain during 2006.

As shown in Table 1, Spain's total declaration of commercial BFT catches during 2006, as reported to ICCAT SCRS, amounted to **4.709.490,00 Kgs. (W/RW)**

¹⁵ Where TE accounts for total exports and TI accounts for total imports

2006 reported BFT catches by Spanish Sport & Recreational fishermen, amounting to **12.010,00 Kgs.** cannot be computed, since commerce of such catches is strictly forbidden by law.

Should Spain's total declaration of commercial BFT catches during 2006, as reported to ICCAT SCRS and amounting to **4.709.490,00 Kgs.** (W/RW) be believed, this would in turn imply (By subtracting total Spanish minimum and maximum 2006 caught BFT exports (**2.822.134,67 Kgs.** and **4.879.552,67 Kgs.** W/RW) from total reported BFT Spanish catches) that Spain's 2006 calculated Apparent Yearly Domestic Consumption (AYDC) of BFT would be in a range of **-170.062,67 Kgs** to **1.887.355,33 Kgs.**

This range is simply unbelievable, for a country such as Spain, which according to data from Spain's Ministry of Agriculture & Fisheries (MAPA-FROM)¹⁶, had an average apparent yearly BFT domestic consumption of **2.889.570,00 Kgs.** thus a well established purchasing and culinary habit for BFT.¹⁷

According to same MAPA-FROM data, Spain's BFT AYDC for 2005 was **4.098.500,00 Kgs.**

We therefore choose not to compute previously calculated AYDC range of **-170.062,67 Kgs** to **1.887.355,33 Kgs.** but instead provisionally input the ones provided by MAPA-FROM.

- o Spain's 2006 minimum theoretical total BFT catches would therefore add-up to:

Spanish caught and exported BFT	2.822.134,67 Kgs. (W/RW)
Spain's BFT AYDC (Source MAPA-FROM)	2.889.570,00 Kgs. (W/RW)
Spanish BFT Sport & Recreational catches	12.010,00 Kgs. (W/RW)

Spain's 2006 minimum theoretical total BFT catches	<u>5.723.714,67 Kgs.</u> (W/RW)
- o Spain's 2006 maximum theoretical total BFT catches would therefore add-up to:

Spanish caught and exported BFT	2.822.134,67 Kgs. (W/RW)
Spain's BFT AYDC (Source MAPA-FROM)	4.098.500,00 Kgs. (W/RW)
Spanish BFT Sport & Recreational catches	12.010,00 Kgs. (W/RW)

Spain's 2006 maximum theoretical total BFT catches	<u>6.932.644,67 Kgs.</u> (W/RW)

Accordingly Spain would have therefore under-reported its real 2006 BFT catches in a range of **1.014.224,67 Kgs.** to **2.223.154,67 Kgs.**

This would mean that Spain could have exceeded its 2006 EU BFT TAC of **6.266.000,00 Kgs.** in a range of **-542.285,33 Kgs.** to **666.644,67 Kgs.**

These theoretical ranges are not to be considered as definitive.

As will be demonstrated in the following Chapter 2., these theoretical ranges do not match Spain's 2006 BFT catch reality.

2006 real catches by Spain's BFT targeting fishing fleets both in the NE Atlantic and the Mediterranean Sea¹⁸ as well as by Sport & Recreational fishermen and TRAP set nets, exceed by far previously stated values.

¹⁶ FROM: Fondo de Regulación y Organización del Mercado de los Productos de la Pesca y Cultivos Marinos. Spain's average yearly BFT domestic consumption was calculated for the period 2002 to 2005. See Ref. Doc. 004.

¹⁷ See Hábitos de Compra Conservación y Consumo de los Productos Pesqueros en la Población Española, Julio 2005. Ministerio de Agricultura, Pesca y Alimentación. FROM. Ref. Doc. 005.

¹⁸ Spain's over-sized BFT-targeting fishing fleet composed of:

- 234 Gill Netters,
- 93 Line Vessels,
- 85 Long Liners,
- 6 Mediterranean Type Purse Seiners,
- 145 Purse Seiners other than Mediterranean Type,
- 31 Trawlers.

Table 2.K: Spain's reported processed BlueFin Tuna Exports during 2006.

2. A preliminary estimation of BlueFin Tuna catches by Spain during 2006 based on Spain's 2006 latest BFT catch reporting to ICCAT SCRS

2.1. BFT Purse Seine (PS) catches by the Spanish Purse Seine Fishing Vessels operating inside the Mediterranean Sea, reported for 2006 by Spain

According to an estimation carried out by ATRT,SL in 2005, the volume of live BFT having been inputted into Spanish tuna ranches that year, amounted to **4.511.000,00 Kgs.** (W/RW) the distribution of which was:

Tuna ranches in the autonomous region of Murcia:

Atunes de Levante:	530.000,00 Kgs.
Piscifactorías de Levante:	307.000,00 Kgs.
Tuna Graso:	0,00 Kgs.
Viver Atún Cartagena:	0,00 Kgs.
Caladeros del Mediterráneo:	1.386.000,00 Kgs.
Servicios Atuneros del Mediterráneo:	593.000,00 Kgs.
Tuna Farms of Mediterráneo:	510.000,00 Kgs.
Viveros Marinos San Pedro:	399.000,00 Kgs.
Atunes de Mazarrón:	0,00 Kgs.

Total: **3.725.000,00 Kgs.**

Tuna ranches in the autonomous region of Catalonia:

Balfegó-Castells: **560.000,00 Kgs.**

Tuna ranches in the autonomous region of Andalusia:

Nature Pesca: **226.000,00 Kgs.**

Total inputted BFT (W/RW) into Spanish Tuna ranches in 2005 **4.511.000,00 Kgs.**

According to official data from the Government of the autonomous region of Murcia¹⁹, total 2005 ranched BFT production amounted to **3.129.600,00 Kgs.**

It is safe to say that previously stated **4.511.000,00 Kgs.** (W/RW) of live BFT having been inputted into Spanish tuna ranches during 2005, once fattened would have weighed some **5.345.535,00 Kgs.** (RD)²⁰

These figures almost match those stated by Spain's Fisheries Authority for 2005:

Total BFT W/RW input into Spanish Tuna Ranches: **4.846.500,00 Kgs.**

Total BFT RDW output by Spanish Tuna Ranches: **≈ 5.500.000,00 Kgs.**

No carry-over of such ranched BFT onto Q3+Q4 2006 has been declared by Spain's Fisheries Authority, nor has ATRT been able to evidence such occurrence.

¹⁹ See Ref Doc 006.

²⁰ Once a flat fattening coefficient of 1.185 is applied. See Chapter 5. Methodology.

According to an estimation carried out by ATRT,SL in 2006, the volume of live BFT having been inputted into Spanish tuna ranches that year, amounted to **≈ 3.866.000,00 Kgs.** (W/RW) the distribution of which was:

Tuna ranches in the autonomous region of Murcia ²¹ :	
Atunes de Levante:	530.000,00 Kgs.
Piscifactorías de Levante:	} ≈ 600.000,00 Kgs.
Tuna Graso:	
Viver Atún Cartagena:	} ≈ 1.250.000,00 Kgs.
Caladeros del Mediterráneo:	
Servicios Atuneros del Mediterráneo:	≈ 86.000,00 Kgs.
Tuna Farms of Mediterráneo:	0,00 Kgs.
Viveros Marinos San Pedro:	≈ 600.000,00 Kgs.
Atunes de Mazarrón:	0,00 Kgs.

Total:	≈ 3.066.000,00 Kgs.
Tuna ranches in the autonomous region of Catalonia:	
Balfegó-Castells:	≈ 800.000,00 Kgs.
Tuna ranches in the autonomous region of Andalusia:	
Nature Pesca:	0,00 Kgs.

Total inputted BFT (W/RW) into Spanish Tuna ranches in 2006 ²²	≈ 3.866.000,00 Kgs. (W/RW)

According to Japan and USA's Q3+Q4 2006 bi-annual reports, **745.930,50 Kgs.** of PS BFT, corresponding to **717.764,29 Kgs.** (W/RW) of ranched live-tuna, were exported during the period July to December 2006. The origin (Fishing & Primary Exporting Country) of all exported **745.930,50 Kgs.** PS BFT was Spain.

According to Japan and USA's Q1+Q2 2007 bi-annual reports, **2.159.680,25 Kgs.** of PS BFT, corresponding to **2.023.544,75 Kgs.** (W/RW) of ranched live-tuna, were exported during the period January to June 2007.

The origin (Fishing & Primary Exporting Country) of all **2.905.610,75 Kgs.** of processed PS ranched BFT corresponding to **2.741.309,04 Kgs.** (W/RW) that were exported during Q3+Q4 2006 and Q1+Q2 2007, was Spain.

According to Industry reports, some **300.000,00 Kgs.** (W/RW) of live-caged-BFT, having been caught and transferred-live during Q3+Q4 2006 in one of Spain's Tuna ranches, were not slaughtered during the period January to June 2007, thus generating an carry-over to Q3+Q4 2007.

We must therefore conclude that **≈ 824.690,96 Kgs.** (W/RW) of Spanish ranched BFT having been caught and transferred-live during Q3+Q4 2006, were indeed slaughtered during Q3+Q4 2006, but exported neither to Japan nor to the USA.

No imports of live BFT by Spain from France and Italy during 2006 have been recorded at EUROSTAT trade database or with ICCAT.

It is nevertheless ATRT's estimation that some **1.986.000,00 Kgs.** (W/RW) of BFT were imported live from France and Italy during the 2006 Summer BFT fishing season, to be ranched at Spanish Tuna ranches.²³

²¹ According to official data from the Government of the autonomous region of Murcia, total 2006 ranched BFT production amounted to **2.756.600,00 Kgs.** See Ref Doc 006.

²² This figure is in sharp contrast with that one stated by Spain's Fisheries Authority for 2006: Total BFT WRW input into Spanish Tuna Ranches: **2.712.914,00 Kgs.** (W/RW)

This would in turn imply that some **1.880.000,00 Kgs.** (W/RW) of BFT were caught and transferred live into Spanish tuna ranches by²⁴:

- Two Spanish tuna PS fishing vessels, permanently operative in the Balearic fishing ground during 2006 and,
- Four operative Spanish tuna PS fishing vessels which were operative in the Eastern Mediterranean during the period May and June 2006 and in the Balearic fishing ground during the period June 15th to July 15th 2006.

According to Spain's 2006 BFT catch reporting to ICCAT SCRS (See Table 1) total tonnage having been caught by Spanish PS vessels would amount to a total of **2.012.796,00 Kgs.** (W/RW)

Should Spain's 2006 PS BFT catch reporting to SCRS be believed, this would in turn imply that only **132.796,00 Kgs.** (W/RW) of live BFT, were exported by Spain to non-Spanish tuna ranches across the Mediterranean Sea and/or offloaded-transhipped dead at ports or onboard reefer/RSW vessels inside the Mediterranean Sea.

No exports of live BFT during 2006 by Spain to Croatia, Turkey, Tunisia, Malta, Italy or Cyprus have been recorded at EUROSTAT trade database or with ICCAT.

Yet, four previously mentioned Spanish PS fishing vessels²⁵, were fully operative in Egyptian, Cypriot, Aegean and Central Mediterranean waters during the entire 2006 BFT fishing season.

It is our firm conviction that the **132.796,00 Kgs.** (W/RW) mark was largely surpassed by such vessels during their 2006 BFT fishing activity in the Eastern and Central Mediterranean Sea.

Industry reports confirm that BFT catches by two of such vessels inside the Egyptian EEZ alone, amounted to **≈ 500.000,00 Kgs.** (W/RW)

It would be therefore safe to state that BFT catches by these four ships in the Eastern and Central Mediterranean Basin during 2006, amounted to at least those catches having taken place inside the Balearic Island fishing ground during 2006 that is some **≈ 1.880.000,00 Kgs.** (W/RW). Such figure would be fully in tune with detected exports during Q3+Q4 2005 and Q1+Q2 2006, by Turkey and Italy to Japan alone, amounting to **1.914.682,00 Kgs.** of processed ranched BFT having been caught by Spanish PS fishing vessels during the 2005 fishing season in Central and Eastern Mediterranean, corresponding to **≈ 1.695.453,44 Kgs.** (W/RW).

- According to Japan's bi-annual BFT Statistical report for Q3+Q4 2005, Turkey exported **140.494,00 Kgs.** of Spanish caught ranched MED PS F & FR RD BFT, corresponding to **≈ 118.560,30 Kgs.** (W/RW).
- According to Japan's bi-annual BFT Statistical report for Q1+Q2 2006, Turkey exported **394.385,00 Kgs.** of Spanish caught ranched MED PS F & FR RD & DR BFT, corresponding to **≈ 333.662,03 Kgs.** (W/RW).
- According to Japan's bi-annual BFT Statistical report for Q3+Q4 2005, Italy exported **239.088,00 Kgs.** of Spanish caught ranched MED PS F DR & BM BFT, corresponding to **≈ 253.947,57 Kgs.** (W/RW)
- According to Japan's bi-annual BFT Statistical report for Q1+Q2 2006, Italy exported **1.140.715,00 Kgs.** of Spanish caught ranched MED PS F & FR RD, DR & BM BFT, corresponding to **≈ 989.283,54 Kgs.** (W/RW)

Part of such fish (**≈ 1.880.000,00 Kgs.** W/RW) could well have been transferred live into tuna ranches in Turkey, Cyprus, Croatia, Tunisia, Malta and Sicily without having been reported and/or declared under another ICCAT Contracting Party's 2006 BFT quota.²⁶

²³ This figure is in sharp contrast with that one stated by Spain's Fisheries Authority for 2006: Total live BFT WRW imports inputted into Spanish Tuna Ranches amounted to **1.423.925,00 Kgs.** (France: **973.925,00 Kgs.**) (Italy: **450.000,00 Kgs.**)

²⁴ This figure is in sharp contrast with that one stated by Spain's Fisheries Authority for 2006: Total live BFT WRW caught and transferred live into Spanish Tuna Ranches by Spanish flagged PS fishing vessels, amounted to **1.288.989,00 Kgs.**

²⁵ See Pictures 3 to 6.

²⁶ To the best of our knowledge two Tuna Ranches were operative in Cyprus during 2006: Kimagro Tuna Ranch at Akrotiri Bay, Limassol, with a 2006 WR/W live-BFT input of **≈ 414.000,00 Kgs.** and Kitiana Fisheries Tuna Ranch at Vasiliko, with a 2006

Other BFT was transhipped dead onboard RSW and or small reefer vessels operative in the region. Two cases have been positively been recorded by Industry sources:

- On May 12th 2006, at 31° 36,5'N ; 33° 44,2' E, 12 BFT weighing **≈ 3.100,00 Kgs.** and 115 BFTs weighing **≈ 22.000,00 Kgs.** were transhipped onboard Cyprus flagged RSW vessel, Cabo Tiñoso I.
- Some **≈ 8.000,00 Kgs.** were equally transhipped by two other Spanish PS vessels onboard FOC flagged reefer vessel SUNNY 001 (EX-JENNY 007) currently flagged to Korea as KYUNG YANG 001 and operated by a Maltese Tuna ranching operator.

Spain BFT PS fishing fleet's activity was nevertheless not only compounded to the Summer BFT fishing season during 2006. Such fleet took an active role during the Spring and Fall small BFT fishing seasons in the Gulf of Lions.²⁷

According to Industry reports, all six Spanish BFT PS fishing vessels, offloaded an average **≈ 131.666,66 Kgs.** (per ship) of **15,00 Kgs.** average weight BlueFin Tunas at ports between Arenys de Mar and L'Ametlla de Mar (Autonomous Region of Catalonia) during the period April to May 2006.²⁸

Catches per ship, according to such reports would be:

- LEONARDO BRULL SECON **≈ 170.000,00 Kgs.** (W/RW)
- GEPUS **≈ 70.000,00 Kgs.** (W/RW)
- LA FRAU SECON **≈ 200.000,00 Kgs.** (W/RW)
- TIO GEL SECON **≈ 200.000,00 Kgs.** (W/RW)
- NUEVO PANCHILLETA **≈ 100.000,00 Kgs.** (W/RW)
- NUEVO ELORZ **≈ 50.000,00 Kgs.** (W/RW)

As in the case of MED LL BFT offloads, dead PS BFT offloads by Spanish BFT PS fishing vessels in Spanish ports are normally directly trucked, processed and distributed to direct buyers without having been auctioned at port.

This common practice is principally due to the fact that four out of six Spanish flagged BFT PS fishing vessels are vertically integrated and therefore owned by two of Spain's largest Tuna ranching and marketing operators, thus meaning that all catches by such vessels exclusively belong to them.

Some **≈ 790.000,00 Kgs.** (W/RW) of BFT would have therefore been caught and offloaded by the Spanish BFT PS fishing fleet, namely at ports of the Autonomous region of Catalonia, to be then marketed/exported directly by the same operators, during the months of April and May 2006. These offloads are not reflected by official statistics from the Government of the autonomous region of Catalonia.²⁹ Likewise, some **≈ 300.000,00 Kgs.** (W/RW) of BFT would have therefore been caught and offloaded by the Spanish BFT PS fishing fleet, again at ports of the Autonomous region of Catalonia, to be then marketed/exported directly by the same operators, during the months of August and September 2006.

WR/W live-BFT input of **≈ 390.000,00 Kgs.** All tunas had been purse seined and transferred live by French and Spanish purse seine vessels.

According to Japan's Bi-annual BFT Statistical report for Q1+Q2 2005, Cyprus exported **957.892,00 Kgs.** of MED PS FR RD BFT, believed to be FARM origin.

According to Japan's Bi-annual BFT Statistical report for Q3+Q4 2005, Cyprus exported **1.031.486,00 Kgs.** of MED PS & UNCL FR RD BFT, believed to be FARM origin.

According to Japan's Bi-annual BFT Statistical report for Q1+Q2 2006, Cyprus exported **448.207,00 Kgs.** of MED PS FR RD BFT, believed to be FARM origin.

Cyprus does not operate a single BFT PS vessel, thus raising the legitimate question as to which PS fishing vessels did catch such important tonnages, declared by Japan as having been caught by Cyprus.

²⁷ According to Secretaria General de Pesca-Madrid, the Spanish BFT PS fleet alone, caught a total of **822.263,00 Kgs.** of **25,23** kilos average juvenile BFTs, inside the Gulf of Lion's fishing ground during the months of March April May and August 2005.

²⁸ BFT offload and direct trucking documentation for one of such PS vessels, shows consistent catch figures with those obtained through Industry reports.

²⁹ Source: Captures per espècie i el preu mitjà d'aquestes al global de les llotges catalanes per l'any 2006. Departament d'Agricultura, Alimentació i Acció Rural. Captures pesqueres - DAR. Generalitat de Catalonia. See Ref Doc 007.

Accordingly, our estimation for Spain's 2006 total BFT PS catches would amount to **≈ 4.850.000,00 Kgs. (W/RW)**, the detail of which follows:

- ≈ 790.000,00 Kgs. (W/RW)** Offloaded dead during April-May 2006,
 - + ≈ 1.880.000,00 Kgs. (W/RW)** Transferred live into Spanish tuna ranches during May-July 2006,
 - + ≈ 1.880.000,00 Kgs. (W/RW)** Estimated maximum BFT catches in the Eastern and Central Mediterranean Basins during May-July 2006,
 - + ≈ 300.000,00 Kgs. (W/RW)** Offloaded dead during August-September 2006.
-
- ≈ 4.850.000,00 Kgs. (W/RW)** Total estimated Spain's 2006 BFT PS catches

These figures are more in tune with Industry statements regarding average yearly BFT catches for all such six vessels.

According to the Spanish Federation of Fishing Organizations (FEOPE) of which all six BFT PS vessels are members, the annual average consolidated BFT catch of all such six PS vessels is **≈ 3.500.000,00 Kgs. (W/RW)** worth some **≈ €8.750.000,00**.³⁰

According to Spain's 2006 BFT catch reporting to ICCAT SCRS (See Table 1) total tonnage having been caught by Spanish PS vessels would amount to a total of **2.012.796,00 Kgs. (W/RW)**

Spain would therefore have under-reported some **≈ 2.837.204,00 Kgs.** of BFT having been caught by Spanish BFT PS vessels operative in the Mediterranean Sea, during 2006.

For ease and clarity, we reproduce herein, Spain's BFT MED PS catch reporting to ICCAT SCRS during the decade 1996-2006.

Year	PS production according to Spain's BFT catch reporting to ICCAT SCRS TASK I				
1996	EC.España	EC.ESP-ES-MEDI_PS	MEDI	PS	1.657,00
1997	EC.España	EC.ESP-ES-MEDI_PS	MEDI	PS	1.172,00
1998	EC.España	EC.ESP-ES-MEDI_PS	MEDI	PS	1.573,00
1999	EC.España	EC.ESP-ES-MEDI_PS	MEDI	PS	1.504,00
2000	EC.España	EC.ESP-ES-MEDI_PS	MEDI	PS	1.675,98
2001	EC.España	EC.ESP-ES-MEDI_PS	MEDI	PS	1.452,60
2002	EC.España	EC.ESP-ES-MEDI_PS	MEDI	PS	1.685,80
2003	EC.España	EC.ESP-ES-MEDI_PS	MEDI	PS	1.885,53
2004	EC.España	EC.ESP-ES-MEDI_PS	MEDI	PS	1.777,61
2005	EC.España	EC.ESP-ES-MEDI_PS	MEDI	PS	2.242,44
2006	EC.España	EC.ESP-ES-MEDI_PS	MEDI	PS	2.012,80

Table 3: Spain's BFT MED PS catch reporting to ICCAT SCRS during the decade 1996-2006. All values in Tm.

Picture 5: Spanish PS fishing vessel NUEVO ELORZ seen in the eastern Mediterranean on June 12th 2006.

Picture 6: Spanish PS fishing vessel NUEVO PANCHILLETA seen in the eastern Mediterranean on June 3rd 2006.

2.2. **BFT Catches by the Basque & Gulf of Biscay BB fishing fleet, reported for 2006 by Spain**

BFT BB fishing fleets in this section correspond to those fleets based in the autonomous regions of Euskadi, Cantabria & Principado de Asturias.

According to Spain's 2006 BFT catch reporting (See Table 1), total tonnage having been caught by such fleets would amount to a total of **750.186,00 Kgs.**

According to the Euskadi autonomous region's statistical database EUSTAT (Departamento de Agricultura, Pesca y Alimentacion, Gobierno Vasco), total offloads of BFT having been effectively offloaded and sold at Basque fishing ports alone, amounted to **936.900,00 Kgs.** worth **€4.338.867,00.**³¹

No statistical data was available on offloads of BFT at Basque fishing ports that had not been effectively sold at such ports but directly trucked to Spanish and/or French fishmongers.

Picture 7: Total offloads of BFT having been effectively offloaded and sold at Basque fishing ports during 2006, according to EUSTAT (Departamento de Agricultura, Pesca y Alimentacion, Gobierno Vasco)

The difference between the **936.900,00 Kgs.** reported by Euskadi autonomous region's EUSTAT and the **864.407,00 Kgs.** reported by the Basque BB fishing Industry³²: **72.493,00 Kgs.** may be attributable to Cantabria Autonomous Region's BB fishing vessels, operative in the same BFT fishing grounds and having offloaded in Basque ports during 2006.

No statistical data of BFT offloads in the ports of the autonomous region of Cantabria for 2006 is yet available. Such data will be computed at a later stage of this enquiry, should such

³¹ See Ref Doc 009 & 010.

³² According to Mr. Jaime Tejedor, President of the Federación de Cofradías de Pescadores de Guipuzcoa, total EA BB BFT catches during 2006 by the Basque Arrantzale BB fishing fleet operative from ports in the Spanish Basque Country, would have amounted to: **864.407,00 Kgs.**

foreseeable offloads have taken place. In the case of the autonomous region of the Principado de Asturias, according to official statistical data³³ **2.090,30 Kgs.** of BFT worth **€3.936,22** were offloaded during 2006 in the region's fishing ports.

Spain has reported **124.919,00 Kgs.** of BFT having been caught under reference EC.ESP-ES-CANT_ALB, AT.E, NE, Other surf., TR, TROL. We assume such catches were all offloaded in ports of the autonomous regions of Euskadi, Cantabria and/or Principado de Asturias.

Spain would have therefore under-reported a minimum of **63.885,30 Kgs.** of BFT having been caught by its Gulf of Biscay BB fishing fleet and TROL fishing boats operating in the Cantabrian Sea during 2006.

Furthermore, such underreporting of BFT catches by the Gulf of Biscay BB fishing fleet is consistent with Spain's continuous underreporting to ICCAT SCRS of BFT yearly catches by such fleet since 1996.

Table 5 below, compares BFT catch data reported by Spain to the ICCAT Task I database and the BFT catch data formally reported by the industry corresponding to the bait boat fishery operating in the Gulf of Biscay, since 1996. Spain would have underreported some **6.034.934,00 Kgs.** during the decade 1996-2006, just for this fleet of BB fishing vessels.

Year	Production according to the Gipuzkoa Federation of Fishermen Associations	Production according to Spain's BFT catch reporting to ICCAT SCRS TASK I	Unreported catches to ICCAT SCRS TASK I	% of unreported catches to ICCAT SCRS TASK I
1996	4.800,000	4.338,554	-461,446	-9,61%
1997	5.800,000	2.365,880	-3.434,120	-59,21%
1998	2.242,000	1.923,355	-318,645	-14,21%
1999	1.162,000	1.132,183	-29,817	-2,57%
2000	1.173,000	1.008,219	-164,781	-14,05%
2001	2.220,000	1.805,937	-414,063	-18,65%
2002	2.052,000	1.918,294	-133,707	-6,52%
2003	435,000	413,030	-21,970	-5,05%
2004	1.455,000	1.356,786	-98,214	-6,75%
2005	2.728,000	1.884,050	-843,950	-30,94%
2006	864,407	750,186	-114,221	-13,21%
2007	1.362,815	?	?	?
Totals	26.294,222	18.896,474	-6.034,934	?

Table 4: Spain's BB CANT BFT reporting disparities 1996 2007. All values in Tm.

³³ Gobierno del Principado de Asturias, Consejería de Medio Rural y Pesca, Dirección General de Pesca. See Ref Doc 011.

2.3. *BFT Catches by the Spanish Canary Island BB fishing fleet operating in the Canary Island and Moroccan fishing grounds, reported for 2006 by Spain*

According to Spain's 2006 BFT catch reporting (See Table: 1), total tonnage caught by such fleet would amount to a total of **73.400,00 Kgs.**³⁴

Spain declared to ICCAT SCRS Task I 2005 catches by its Canary Island BB fishing fleet amounting to:

BigEye Tuna (BET)	2.960.100,00 Kgs.
BlueFin Tuna (BFT)	34.920,00 Kgs.
Total:	<u>2.995.020,00 Kgs.</u>

Yet, according to the Servicio de Desarrollo Pesquero de la Viceconsejería de Pesca del Gobierno de Canarias-Poseican: Túnidos 2005³⁵, catches by the Canary Island fishing fleet amounted to:

BigEye Tuna (BET)	1.898.980,07 Kgs.
BlueFin Tuna (BFT)	1.046.907,80 Kgs.
Total:	<u>2.945.887,87 Kgs.</u>

PRODUCTO	ESPECIE	COD. ESPECIE	IMPORTE TOTAL DE FACTURAS	IMPORTE TOTAL DE KILOS	IMPORTE/KILOS
TÚNIDOS	LISTADO	SKJ	3.134.208,62	2.328.790,78	1,35
	ATÚN	BFT	4.411.366,28	1.046.907,80	4,21
	ATÚN BLANCO	ALB	1.539.543,71	433.168,00	3,55
	PATUDO	BET	7.723.217,75	1.898.980,07	4,07
	BABEL	YFT	51.226,91	27.584,30	1,86
TOTAL TÚNIDOS			16.859.563,27	5.735.420,95	2,94

Picture 8: Total offloads of BFT and BET having been effectively offloaded and sold at fishing ports of the Canary Islands during 2005, according to Servicio de Desarrollo Pesquero de la Viceconsejería de Pesca del Gobierno de Canarias-Poseican.

According to SOIVRE³⁶ based in Las Palmas, only **200,00 Kgs.** of BET worth **€ 429,14**, were exported abroad during the period March-December 2005.³⁷ No trace of processed (fresh and frozen – F & FR) BFT or BET exports from Canary Islands could be traceable in EUROSTAT for that same period. We thus believe that most of Canary Islands BET and BFT 2005 production was directly shipped to mainland Spain.

³⁴ According to Mr. Andrés Cedrés, President of the Asociación de Productores de Túnidos de Lanzarote, quoted on local press reports August 28th 2007, total tuna catches by the Canary Island BB fishing fleet during 2006 would have amounted to **600.000,00 Kgs.** See Ref Doc 012 & Ref Doc 013.

We believe that such 2006 catches, as reported by Mr. Cedres, correspond to BFT, since that according to ICCAT-SCRS Task I, Spain reported BigEye Tuna (BET) catches by its Canary Island BB fishing fleet during 2006, amounting to **2.738.893,00 Kgs.**

³⁵ See Ref Doc 014.

³⁶ Servicio Oficial de Inspeccion, Vigilancia y Regulacion de las Exportaciones

³⁷ See Ref Doc 015.

Spain would have therefore under-reported some **1.011.987,80 Kgs.** of BFT having been caught by its Canary Island BB fishing fleet during 2005.

Spain declared to ICCAT SCRS Task I 2006 catches by its Canary Island BB fishing fleet amounting to:

BigEye Tuna (BET)	2.738.893,00 Kgs.
BlueFin Tuna (BFT)	73.400,00 Kgs.

Total:	2.812.293,00 Kgs.

Yet, according to the Servicio de Desarrollo Pesquero de la Viceconsejería de Pesca del Gobierno de Canarias-Poseican: Túnidos 2006, catches by the Canary Island fishing fleet amounted to:

BigEye Tuna (BET)	2.403.711,44 Kgs.
BlueFin Tuna (BFT)	521.094,40 Kgs.

Total:	2.924.805,84 Kgs.

Spain would have therefore under-reported some **447.694,40 Kgs.** of BFT having been caught by its Canary Island BB fishing fleet during 2006.

According to SOIVRE³⁸ based in Las Palmas, only **4.178,00 Kgs.** of BFT were exported abroad during the period January-December 2006.³⁹

No trace of processed (F & FR) BFT or BET exports from Canary Islands could be traceable in EUROSTAT for that same period. We thus believe that most of Canary Islands BET and BFT 2006 production was directly shipped to mainland Spain.

No statistical data was available on offloads of BFT at Canary Islands ports that had not been effectively sold at such ports but directly purchased ex-ship by local and/or foreign fishmongers.

³⁸ Servicio Oficial de Inspeccion, Vigilancia y Regulacion de las Exportaciones.

³⁹ See Ref Doc 015.

2.4. Other BFT Catches in the North East Atlantic by Spanish BB and LL fishing vessel operating South of Spain (Gibraltar / Gulf of Cadiz fishing Grounds and West of Portugal's coast), reported for 2006 by Spain

According to Spain's 2006 BFT catch reporting (See Table: 1), total tonnage having been caught by such fleets would amount to a total of **260.010,00 Kgs.**, of which:

241.546,00 Kgs. would correspond to catches by Spanish BB fishing vessels,

18.464,00 Kgs. would correspond to Spanish LL fishing vessels (LLHB-ES-SWO).

According to official statistics from the Government of the autonomous region of Galicia⁴⁰, the total amount of BFT having been offloaded and sold at principal first-auction fish markets in Galician ports during 2006 was **23.618,25 Kgs.** distributed as follows:

Burela	15.068,50 Kgs.	worth: €	73.626,03
Celeiro	156,00 Kgs.	worth: €	315,93
Lonxa de Coruña, SA.	1.302,75 Kgs.	worth: €	5.745,60
Vigo (Pesc Cabaleiro)	7.091,00 Kgs.	worth: €	59.551,65

According to official statistics from the Government of the autonomous region of Andalucía⁴¹, the total amount of BFT having been offloaded and sold at principal first-auction fish markets in Atlantic coast Andalusia ports during 2006 was **284.889,90 Kgs.** distributed as follows:

Algeciras	239.569,20 Kgs.	worth: €	1.962.564,30
Ayamonte	33.824,00 Kgs.	worth: €	193.917,15
Barbate	2.513,20 Kgs.	worth: €	26.273,07
Bonanza	0,00 Kgs.	worth: €	0,00
Cadiz	90,00 Kgs.	worth: €	665,30
Chipiona	0,00 Kgs.	worth: €	0,00
Conil	3.510,00 Kgs.	worth: €	35.929,80
Huelva	0,00 Kgs.	worth: €	0,00
Isla Cristina	10,50 Kgs.	worth: €	128,10
La Atunara	0,00 Kgs.	worth: €	0,00
Puerto de Santa Maria	889,00 Kgs.	worth: €	12.040,14
Punta Umbria	0,00 Kgs.	worth: €	0,00
Rota	0,00 Kgs.	worth: €	0,00
Tarifa	4.484,00 Kgs.	worth: €	50.590,00

According to bi-annual reports by Japan and USA (Ref.: ICCAT 1847-06, ICCAT 627-07 & ICCAT 2157-06) Spain exported to both countries **13.475,81 Kgs.** (Equivalent WR/W) corresponding to BFT catches by Spanish EA UNCL, BB, LL and RR Tuna fishing vessels.

Spain would have therefore under-reported a minimum of **61.973,96 Kgs.** of BFT having been caught by Spanish BB and LL fishing vessel operating South of Spain (Gibraltar / Gulf of Cadiz fishing Grounds and West of Portugal's coast, during 2006).

No further statistical data was available on offloads of BFT at ports of the autonomous regions of Galicia and Andalucía that had not been effectively sold at such ports but directly purchased ex-ship by local and/or foreign fishmongers.

⁴⁰ Source: VENDAS NAS LONXAS, Agrupado: FAO Especie/Año (E-A) Xunta de Galicia, Conseilleria de Pesca e Asuntos Marítimos.

⁴¹ Source: Consejería de Agricultura y Pesca, Gobierno de la Junta de Andalucía. Idapes. See Ref Doc 016.

2.5. BFT Trap Catches by the Spanish BFT Trap-Set-Nets operative in the Atlantic South West coast of Spain, reported for 2006 by Spain

According to Spain's 2006 BFT catch reporting (See Table: 1), total tonnage having been caught by Spanish BFT Trap-Set-Nets operative in the Atlantic SW coast of Spain would amount to a total of **819.755,00 Kgs.**⁴²

According to direct industry reports the total yearly production for all four Spanish BFT Trap-Set-Nets operative in the Atlantic SW coast of Spain would have amounted to a total of **992.804,00 Kgs.** The catch and export detail per Trap-Set-Net in wild round weight (W/RW) for that particular year is as follows⁴³:

	BFT W/RW Catches	BFT W/RW Exports
Almadraba Cabo Plata	184.000,00 Kgs.	125.506,00 Kgs.
Almadraba Punta Atalaya	373.000,00 Kgs.	284.288,00 Kgs.
Almadraba de España	80.000,00 Kgs.	72.945,00 Kgs.
Almadrabas (Pesquerias de)	355.804,00 Kgs.	295.162,00 Kgs.
	-----	-----
TOTALS:	992.804,00 Kgs.	777.901,00 Kgs. ⁴⁴

Spain would have therefore under-reported a minimum of **173.049,00 Kgs.** of BFT having been caught by Spanish Trap-Set-Nets operative in the Atlantic SW coast, during 2006.

Furthermore, such underreporting of BFT catches by Spain's Atlantic Tuna traps is consistent with Spain's continuous misreporting to ICCAT SCRS of BFT yearly catches by such traps since 1996.

Year	Production according to OPP51 TRAP Producers Association	Production according to Spain's TRAP BFT catch reporting to ICCAT SCRS TASK I	Unreported catches to ICCAT SCRS TASK I	% of unreported catches to ICCAT SCRS TASK I
1996	?	1.207,000	?	?
1997	2.807,000	2.723,000	-84,000	-2,99%
1998	1.953,000	1.525,000	-428,000	-21,92%
1999	3.448,000	2.005,000	-1.443,000	-41,85%
2000	1.552,000	1.416,324	-135,676	-8,74%
2001	1.127,000	1.239,900	112,900	10,02%
2002	1.474,000	1.548,400	74,400	5,05%
2003	726,000	749,820	23,820	3,28%
2004	792,000	862,440	70,440	8,89%
2005	750,000	880,450	130,450	17,39%
2006	992,804	819,755	-173,049	-17,43%
Totals	16.962,945	14.977,089	-1.851,715	?

Table 5: Spain's TRAP BFT reporting disparities 1996 2007.

⁴² According to Spanish national daily El Pais (16/06/2007) 2006 EA TRAP BFT catches amounted to **6.200** BlueFin Tunas with an average weight per fish of **156 Kgs. ≈ 967.200,00 Kgs.**

⁴³ Source: OPP51. According to 2006 bi-annual reports by Japan, such exports would have amounted to **857.502,03 Kgs.**

⁴⁴ According to bi-annual reports by Japan and USA (Ref.: ICCAT 1847-06, ICCAT 2157-06 & ICCAT 627-07) total equivalent WR/W having been exported by Spanish EA Tuna TRAPs amounted to **857.502,03 Kgs.**

Previous Table 6. compares BFT catch data reported by Spain to the ICCAT Task I database and BFT catch data formally reported by the TRAP industry since 1996. Spain would have underreported some **1.851.715,00 Kgs.** during the decade 1996-2006, just for NEA TRAPs.

According to bi-annual reports by Japan and USA (Ref.: ICCAT 1847-06 & ICCAT 2157-06) Spain exported to both countries **14.571,25 Kgs.** (Equivalent WR/W) corresponding to BFT catches by Spanish MED Tuna TRAPs. Spain has failed to report such **14.571,25 Kgs.** BFT catches to ICCAT-SCRS Task I.⁴⁵

⁴⁵ Spain operates two Mediterranean BFT TRAP Set Nets: "Almadrabas". One in Ceuta, Alboran Sea; one in La Azohía, Murcia, North of the Cape of Gata.

2.6. **BFT catches by the Spanish Long Line Fishing Vessels operating inside the Mediterranean Sea, reported for 2006 by Spain**

According to Spain's 2006 BFT catch reporting (See Table: 1), total tonnage having been caught by such fleet would amount to a total of **668.424,00 Kgs.**, the detail of which breaks down as follows:

EC.ESP	MEDI	LLALB	423.951,00 Kgs.
EC.ESP	MEDI	LLJAP	234.688,00 Kgs.
EC.ESP-ES-MEDI_SWO	MEDI	LLHB	9.785,00 Kgs.

According to official statistics from the Government of the autonomous region of Andalucía⁴⁶, the total amount of BFT having been offloaded and sold at principal first-auction fish markets in Mediterranean coast ports in Andalusia during 2006 was **129.546,28 Kgs.** distributed as follows:

Adra	47,80 Kgs.	worth: €	333,80
Almeria	129,60 Kgs.	worth: €	761,46
Caleta de Velez	0,00 Kgs.	worth: €	0,00
Carboneras	119.284,10 Kgs.	worth: €	486.897,44
Estepona	0,00 Kgs.	worth: €	0,00
Fuengirola	0,00 Kgs.	worth: €	0,00
Garrucha	4.338,30 Kgs.	worth: €	29.226,72
Malaga	2,00 Kgs.	worth: €	42,00
Marbella	0,00 Kgs.	worth: €	0,00
Motril	905,50 Kgs.	worth: €	8.309,45
Roquetas de Mar	4.838,98 Kgs.	worth: €	44.155,35

According to official statistics from the Government of the autonomous region of Murcia⁴⁷, the total amount of BFT having been offloaded and sold at principal first-auction fish markets in Mediterranean coast Murcia ports during 2006 was **18.622,00 Kgs.** distributed as follows:

Aguilas	893,00 Kgs.	worth: €	4.234,00
Cartagena	17.715,00 Kgs.	worth: €	73.969,00
Mazarron La Azohia	13,00 Kgs.	worth: €	37,00
San Pedro del Pinatar	0,00 Kgs.	worth: €	0,00

According to official statistics from the Government of the autonomous region of Valencia⁴⁸, the total amount of BFT having been offloaded and sold at principal first-auction fish-markets in Mediterranean coast Valencia ports during 2006 was **51.700,00 Kgs.** distributed as follows:

Alicante	1.300,00 Kgs.	worth: €	5.100,00
Castellon	50.200,00 Kgs.	worth: €	251.600,00
Valencia	200,00 Kgs.	worth: €	800,00

According to official statistics from the Government of the autonomous region of Catalonia⁴⁹, the total amount of BFT having been offloaded and sold at principal first-auction fish markets in Mediterranean coast Catalanian ports during 2006 was **273.541,21 Kgs.**

Total recorded BFT offloads in Spanish Mediterranean ports during 2006, attributable to Long Line (LL) BFT catches, amounted to **473.409,49 Kgs.**

As stated previously, Spain reported a total of **668.424,00 Kgs.** as having been caught by its Long Line Fishing Vessels operating inside the Mediterranean Sea.

The difference between reported catches and recorded offloads amounting to **195.014,51 Kgs.** is nevertheless not attributable to an over-reporting of such catches by Spain, but rather

⁴⁶ Source: Consejería de Agricultura y Pesca, Gobierno de la Junta de Andalucía. Idapes. See Ref Doc 016.

⁴⁷ See Ref Doc 017.

⁴⁸ Source: Instituto Valenciano de Estadística Generalitat Valenciana. See Ref Doc 018 & Ref Doc 019.

⁴⁹ Source: Captures per espècie i el preu mitjà d'aquestes al global de les llotges catalanes per l'any 2006. Departament d'Agricultura, Alimentació i Acció Rural. Captures pesqueres - DAR. Generalitat de Catalonia. See Ref Doc 007.

to BFT having been offloaded and distributed to direct buyers without having been auctioned at port.

This is common practice in the entire Spanish Mediterranean coast where major Spanish and French fishmongers will buy the entire BFT fishing production of a given LL fishing fleet before the fishing season even starts.

No statistical data was available on offloads of BFT at ports of the autonomous regions of Andalucía, Murcia, Valencia and Catalanian that had not been effectively sold at such ports but directly purchased ex-ship by local and/or foreign fishmongers.

Yet it is safe to say that Spain's MED LL BFT catch reporting to ICCAT-SCRS amounting to a total of **668.424,00 Kgs.** (W/RW) is clearly and without question, underreported.

On one hand, should such figure be believed, this would imply that the 2006 average yearly BFT catch for every one of Spain's 66 Mediterranean longliners authorised to target BFT⁵⁰, would have only amounted to some **≈ 10.127,64 Kgs.** (W/RW)!

Such figures simply defy common sense.

On the other hand, trade figures for fresh BFT 2006 exports from Spain during the period April-July 2006, clearly indicate irreconcilable disparities between Spain's officially reported version and reality, thus making it impossible to accommodate Spain's reporting in this regard.

In order to prove this case, two sets of data are used to estimate Spanish MED LL BFT real catches during 2006.

- Trade data showing MED LL BFT exports taken from ICCAT biannual reports. These show Spanish exports of MED LL BFT to Japan and the USA.
- EUROSTAT data corresponding to Spanish exports of fresh BFT⁵¹ during the months of April, May, June and July 2006, to countries other than those for which ICCAT biannual reports are available (Japan and USA). See Table: 7.

As stated in previous Sections of this Chapter 2.:

- *"BFT Trap Catches by the Spanish BFT Trap-Set-Nets operative in the Atlantic South West coast of Spain, reported for 2006 by Spain"*, Spanish TRAP BFT catches, taking place during the same period, were almost 100% exported to Japan and the USA, the remaining production was consumed locally.

EUROSTAT data corresponding to Spanish exports of fresh BFT during the months of April, May, June and July 2006, is therefore free of TRAP BFT origin product.

- Spanish PS BFT catches, taking place during the same period, were either:
 - Offloaded dead at Spanish Ports and trucked directly to France. Such exports do not appear on EUROSTAT Trade database.

As stated in Section 2.1.: *"BFT Purse Seine (PS) catches by the Spanish Purse Seine Fishing Vessels operating inside the Mediterranean Sea, reported for 2006 by Spain"* **790.000,00 Kgs.** of dead fresh BFT were offloaded by Spanish PS vessels at Spanish Mediterranean ports during the months of April and early May 2006.

Total EUROSTAT recorded processed fresh BFT exports by Spain for those two months amounted to **255.300,00 Kgs.** equivalent to some **≈ 296.148,00 Kgs.** (W/RW)

⁵⁰ Data according to ICCAT's positive list of vessels authorised to target BFT. Ref. 007 ICCAT_VESSELS_FIS_31102007. See Ref Doc. 020.

⁵¹ Two TARIC Codes were used:

- 03023510, corresponding to: FRESH OR CHILLED BLUEFIN TUNAS "THUNNUS THYNNUS", FOR INDUSTRIAL PROCESSING OR PRESERVATION,
- 03023590, corresponding to: FRESH OR CHILLED BLUEFIN TUNAS "THUNNUS THYNNUS" (EXCL. TUNAS FOR INDUSTRIAL PROCESSING OR PRESERVATION)

- Transferred live into Spanish or foreign Tuna ranches.
- Transhipped dead onboard reefer/RSW vessels at sea live into Spanish or foreign Tuna ranches.

EUROSTAT data corresponding to Spanish exports of fresh BFT during the months of April, May, June and July 2006 is therefore free of PS BFT origin product.

Accordingly:

- Based on bi-annual reports contained in ICCAT Circulars: ICCAT 1847-06 (Jan - Jun., 2006), ICCAT 2157-06 (Jan - Jun., 2006) and ICCAT 627-07 (Jul. - Dec., 2006) Japan and the USA alone, would have imported from Spain **95.241,05 Kgs.** of processed fresh MED LL caught BFT, corresponding to some \approx **120.523,41 Kgs.** W/RW of live BFT.
- Based on EUROSTAT data corresponding to Spanish exports of fresh BFT during the months of April, May, June and July 2006⁵², to countries other than those for which ICCAT biannual reports are available (Japan and USA) Spain would have exported **1.483.700,00 Kgs.** of fresh processed BFT corresponding to some \approx **1.721.092,00 Kgs.** (W/RW)

This figure does not necessarily mean that Spanish MED longliners caught such amount of BFT during the period April to July 2006.

- According to EUROSTAT, Spain imported from Portugal some **22.900,00 Kgs.** of fresh processed BFT corresponding to some \approx **26.564,00 Kgs.** (W/RW) during that same period.
- According to EUROSTAT, Spain imported from Tunisia, Algeria and Morocco some **68.000,00 Kgs.** of fresh processed BFT corresponding to some \approx **78.880,00 Kgs.** (W/RW) during that same period.^{53 54}

We therefore choose to subtract such imports from Spain's exports, thus fully avoiding any erroneous double counting related to re-export.

Spain would have therefore exported:

1.483.700,00 Kgs.	1.721.092,00 Kgs. (W/RW) – EUROSTAT
+ 95.241,05 Kgs.	120.523,41 Kgs. (W/RW) – Japan + USA
- 22.900,00 Kgs.	26.564,00 Kgs. (W/RW) – Portugal
- 73.936,00 Kgs.	81.711,70 Kgs. (W/RW) – TN + MA + DZ

= 1.482.105,05 Kgs.	1.733.339,71 Kgs. (W/RW)

Of which and according to EUROSTAT Trade figures:

843.500,00 Kgs.	978.460,00 Kgs. (W/RW) were exported to France
599.900,00 Kgs.	695.884,00 Kgs. (W/RW) were exported to Italy

EUROSTAT Trade figures related to Spain's exports of fresh BFT to France and Italy (Table: 7), almost match those for imports of fresh BFT by Spain from those two countries for the exact same period (Table: 8):

821.500,00 Kgs.	952.940,00 Kgs. (W/RW) were imported from France
584.700,00 Kgs.	678.252,00 Kgs. (W/RW) were imported from Italy

This, still does not necessarily mean that Spanish MED longliners caught **1.482.105,05 Kgs.** (**1.733.339,71 Kgs.** W/RW) of BFT during the period April to July 2006.

⁵² See Table: 6.

⁵³ See Table 7.

⁵⁴ Incidentally and according to EU Q1+Q2 2006 bi-annual report, Spain would have imported from those same countries, **73.936,00 Kgs.** of processed fresh BFT, corresponding to some \approx **81.711,70 Kgs.** (W/RW) See Ref. Doc. 021

The overlapping of the NEA BB BFT fishing season, starting mid-July 2006, requires that such figures be revised by subtracting an equivalent $\approx 85\%$ of BFT catches having taken place until July 30th 2006 (Mid-fishing season) by the Arranzale BB fishing fleet, normally exported to the European Market.

As stated before, and according to the Gipuzkoa Federation of Fishermen Associations, total 2006 BFT production amounted to **864.407,00 Kgs.** (W/RW)

It is therefore safe to say that the \approx **432.203,50 Kgs.** (W/RW) BFT catch level was attained by the Arranzale BB fleet on July 30th 2006 and that \approx **367.372,98 Kgs.** (W/RW) corresponding to 85% of such catch, were exported fresh.

By subtracting such W/RW amount to previously stated **1.733.339,71 Kgs.** (W/RW) corresponding to Spain's total exports of fresh Spanish caught BFT during the period April-July 2006, it is safe to conclude that Spain's MED LL fishing fleet caught and exported \approx **1.365.966,74 Kgs.** (W/RW) of BFT during 2006.

Such amount would imply that the 2006 average yearly BFT catch for every one of Spain's 66 Mediterranean longliners authorised to target BFT, would have amounted to a more realistic, though conservative \approx **20.696,46 Kgs.** (W/RW)!

According to Spain's 2006 BFT catch reporting (See Table: 1), total tonnage having been caught by its MED LL fleet would amount to a total of **668.424,00 Kgs.**

Spain would have therefore under-reported a minimum of **697.542,74 Kgs.** of BFT having been caught by Spanish LL vessels inside the Mediterranean Sea during 2006.

For ease and clarity, we reproduce herein, Spain's BFT MED LL catch reporting to ICCAT SCRS during the decade 1996-2006.

Year	MED LL production according to Spain's BFT catch reporting to ICCAT SCRS TASK I				
1996	EC.España	EC.ESP	MEDI	LLJAP + LLHB + LLALB	369,00
1997	EC.España	EC.ESP	MEDI	LLJAP + LLHB + LLALB	871,00
1998	EC.España	EC.ESP	MEDI	LLJAP + LLHB + LLALB	253,00
1999	EC.España	EC.ESP	MEDI	LLJAP + LLHB + LLALB	418,00
2000	EC.España	EC.ESP	MEDI	LLJAP + LLHB + LLALB	492,64
2001	EC.España	EC.ESP	MEDI	LLJAP + LLHB + LLALB	643,80
2002	EC.España	EC.ESP	MEDI	LLJAP + LLHB + LLALB	436,00
2003	EC.España	EC.ESP	MEDI	LLJAP + LLHB + LLALB	582,56
2004	EC.España	EC.ESP	MEDI	LLJAP + LLHB + LLALB	528,50
2005	EC.España	EC.ESP	MEDI	LLJAP + LLHB + LLALB	483,74

Table: 8. Spain's imports of fresh BlueFin Tuna during the period April-July 2006.

3. A refined estimation of BlueFin Tuna catches by Spain during 2006 based on Spain's 2006 latest BFT catch reporting to ICCAT SCRS and Spain's 2006 officially reported imports & exports of live & processed BFT

Preliminary findings in Chapter 2. can be summarised as follows⁵⁵:

As stated previously, the preliminary degree of Spain's 2006 BFT catch under-reporting could amount to **4.295.920,65 Kgs.** and can be summarized as follows⁵⁶:

BB BFT catches by northern Spain's fishing fleet:	63.885,30 Kgs. (W/RW)
BB BFT catches by Spain's Canary Island fishing fleet:	447.694,40 Kgs. (W/RW)
BB BFT catches by Northern Spain's BB and LL fishing fleets operating South of Spain (Gibraltar / Gulf of Cadiz fishing Grounds and West of Portugal)	61.973,96 Kgs. (W/RW)
Trap BFT catches by Spain's Trap-Set-Nets operative in the Atlantic SW coast:	173.049,00 Kgs. (W/RW)
PS BFT catches by Spain's Med BFT PS fishing fleet:	2.837.204,00 Kgs. (W/RW)
Trap BFT catches by Spain's Trap-Set-Nets operative in the Mediterranean:	14.571,25 Kgs. (W/RW)
LL BFT catches by Spain's Med BFT LL fishing fleet:	697.542,74 Kgs. (W/RW)

Accordingly, Spain's estimated total 2006 BFT production for such fleets (Including Sport & Recreational reported catches) could amount to **9.017.420,65 Kgs.** and can be summarized as follows⁵⁷:

TR-TROLL + BB BFT catches by Northern Spain's fishing fleet:	938.990,30 Kgs. (W/RW)
BB BFT catches by Spain's Canary Island fishing fleet:	521.094,40 Kgs. (W/RW)
BFT catches by Northern Spain's BB and LL fishing fleets operating South of Spain (Gibraltar / Gulf of Cadiz fishing Grounds and West of Portugal)	321.983,96 Kgs. (W/RW)
Trap BFT catches by Spain's Trap-Set-Nets operative in the Atlantic SW coast:	992.804,00 Kgs. (W/RW)
BFT catches by Spain's LL fishing fleets operating inside the Mediterranean Sea:	1.365.966,74 Kgs. (W/RW)
PS BFT catches by Spain's Med BFT PS fishing fleet:	4.850.000,00 Kgs. (W/RW)
Trap BFT catches by Spain's Trap-Set-Nets operative in the Mediterranean:	14.571,25 Kgs. (W/RW)
BFT catches by Spain's sport fishery in MEDI + NEA:	12.010,00 Kgs. (W/RW)

Accordingly, the estimated over-harvest of Spain's 2006 BFT catch by such fleets would amount to **2.751.420,65 Kgs.** above its 2006 BFT EU TAC of **6.266.000,00 Kgs.**⁵⁸

⁵⁵ See also Table: 9.

⁵⁶ Previously estimated Spain's total 2006 BFT under-reporting of its real BFT catches based on trade data, amounted to **3.333.484,24 Kgs.**

⁵⁷ Previously estimated Spain's total 2006 BFT production based on trade data amounted to **8.054.984,24 Kgs.**

⁵⁸ Previously estimated Spain's total 2006 BFT over-harvest above its 2006 BFT EU TAC of **6.266.000,00Kgs.** amounted to **1.788.984,24 Kgs.**

Total						4.721.500,00	9.017.420,65	-4.295.920,65

Table: 9. Preliminary disparities between Spain's 2006 BFT catch reporting to ICCAT-SCRS and BFT estimated real catches by fishing gear, stock and area.

As stated in Chapter: 1, Spain's average apparent yearly BFT domestic consumption (AYDC) for the years 2002-2005 amounted to **2.889.570,00 Kgs.** (W/RW)⁵⁹,

According to same MAPA-FROM data, Spain's BFT AYDC for 2005 was **4.098.500,00 Kgs.** (W/RW)

As stated in Chapter:3, Spain's total BFT catches may well have amounted to **9.017.420,65 Kgs.** (W/RW) of which **12.010,00 Kgs.** (W/RW) corresponding to Sport & Recreational BFT catches, were not commercial.

According to Trade data contained in Tables 2.A. to 2.K. (Chapter 1.) Spain's 2006 total caught BFT exports amounted to **5.343.058,17 Kgs.** (W/RW)⁶⁰

Yet and as also calculated in Chapter 1, Spanish fishing vessels could have theoretically only caught and exported a minimum of **2.822.134,67 Kgs.** (W/RW) of processed BFT during 2006, entirely landed and/or ranched in Spain.

According to Japan and USA's Q1+Q2 2007 bi-annual reports, **2.159.680,25 Kgs.** of PS BFT, corresponding to **2.023.544,75 Kgs.** (W/RW) of ranched live-tuna caught and transferred live for ranching purposes during Q3+Q4 2006, were exported during 2007 1st semester.

According to EUROSTAT Trade data, Spain imported a total of **2.432.100,00 Kgs.** of processed fresh and frozen BFT during 2006. See Table: 10.

TARIC Code & Denomination	Weight
03023510, FRESH OR CHILLED BLUEFIN TUNAS "THUNNUS THYNNUS", FOR INDUSTRIAL PROCESSING OR PRESERVATION	12.350,00
03023590, FRESH OR CHILLED BLUEFIN TUNAS "THUNNUS THYNNUS" (EXCL. TUNAS FOR INDUSTRIAL PROCESSING OR PRESERVATION)	2.328.500,00
03023911, BLUEFIN TUNAS 'THUNNUS THYNNUS', FRESH OR CHILLED, FOR INDUSTRIAL PROCESSING OR PRESERVATION	0,00
03023991, BLUEFIN TUNAS 'THUNNUS THYNNUS', FRESH OR CHILLED (EXCL. TUNAS FOR INDUSTRIAL PROCESSING OR PRESERVATION)	0,00
03034511, FROZEN BLUEFIN TUNAS "THUNNUS THYNNUS" FOR INDUSTRIAL PROCESSING OR PRESERVATION, WHOLE	35.700,00
03034513, FROZEN BLUEFIN TUNAS "THUNNUS THYNNUS" FOR INDUSTRIAL PROCESSING OR PRESERVATION, GILLED AND GUTTED	0,00
03034519, FROZEN BLUEFIN TUNAS "THUNNUS THYNNUS" FOR INDUSTRIAL PROCESSING OR PRESERVATION, WITHOUT HEAD AND GILLS, BUT STILL TO BE GUTTED	42.100,00
03034590, FROZEN BLUEFIN TUNAS "THUNNUS THYNNUS" (EXCL. FOR INDUSTRIAL PROCESSING OR PRESERVATION)	13.450,00
03034921, BLUEFIN TUNAS 'THUNNUS THYNNUS', FROZEN, FOR INDUSTRIAL PROCESSING OR PRESERVATION, WHOLE	0,00
03034923, BLUEFIN TUNAS 'THUNNUS THYNNUS', FROZEN, FOR INDUSTRIAL PROCESSING OR PRESERVATION, GILLED AND GUTTED	0,00
03034929, BLUEFIN TUNAS 'THUNNUS THYNNUS', FROZEN, FOR INDUSTRIAL PROCESSING OR PRESERVATION (EXCL. WHOLE AND GILLED AND GUTTED)	0,00

Table: 10. Spain imports of processed fresh and frozen BFT during 2006. Source: EUROSTAT.

As stated in Chapter:2, and according to Industry reports, some **300.000,00 Kgs.** (W/RW) of live-caged-BFT, having been caught and transferred-live during Q3+Q4 2006 in one of Spain's

⁵⁹ Source: FROM: Fondo de Regulación y Organización del Mercado de los Productos de la Pesca y Cultivos Marinos. Spain's average yearly BFT domestic consumption was calculated for the period 2002 to 2005. See Ref. Doc. 004.

⁶⁰ According to Japan and USA's Q3+Q4 2006 bi-annual reports, **745.930,50 Kgs.** of PS BFT, corresponding to **717.764,29 Kgs.** (W/RW) of ranched live-tuna, were exported during the period July to December 2006. The origin (Fishing & Primary Exporting Country) of all exported **745.930,50 Kgs.** PS BFT was Spain.

Tuna ranches, were not slaughtered during the period January to June 2007, thus generating an carry-over to Q3+Q4 2007.

According to our estimations. Spain's 2006 BFT "Grey Product Flux", that is the amount of Spanish commodity fully escaping catch control and/or market traceability, may oscillate between **2.193.331,23 Kgs.** (W/RW) and **3.402.261,23 Kgs.** (W/RW) the calculation detail of which, follows.

Spain's 2006 total BFT commercial catches	9.005.410,65 Kgs. (W/RW)
- Spanish 2006 caught and exported BFT 2006	2.822.134,67 Kgs. (W/RW)
- Spanish 2006 caught and exported BFT 2007	2.023.544,75 Kgs. (W/RW)
- Spanish 2006 caught BFT over-carried to Q3+Q4 2007	300.000,00 Kgs. (W/RW)
+ Spain's 2006 total fresh & frozen processed BFT imports	2.432.100,00 Kgs. (W/RW)
=	6.291.831,23 Kgs. (W/RW)
- Spain's 2005 BFT AYDC	4.098.500,00 Kgs. (W/RW)
or	
- Spain's 2002-2005 average AYDC	2.889.570,00 Kgs. (W/RW)
= Spain's 2006 Minimum BFT "Grey Product Flux"	2.193.331,23 Kgs. (W/RW)
or	
= Spain's 2006 Maximum BFT "Grey Product Flux"	3.402.261,23 Kgs. (W/RW)

BFT "Grey Product Flux" may not be evenly distributed between domestic market consumption and unreported exports. This much renders the exercise of calculating Real Yearly Domestic Consumption (RYDC) as opposed to AYDC, almost impossible from a statistical point of view.

4. An estimation of BlueFin Tuna Catches by Spain during 2007

4.1. A preliminary estimation of BlueFin Tuna catches by Spain during 2007, based on Spain's officially reported imports and exports of live and processed BFT.

The BFT fishery was officially closed by the European Union on September 17th 2007.

No catches of BFT by Spanish fishing vessels have therefore been reported since such date.

Spain has fully implemented the 2007 EU BFT fishery closure.

Japan's bi-annual reports for Q1+Q2 and Q3+Q4 2007 to ICCAT have also been made available.

Spain's reported processed BlueFin Tuna exports during January 1st to December 31st 2007, computed as explained in Chapter 5: **Methodology**, of this document, are thus detailed in Tables: 12. A. to AE.

Important disparities as to the volume of Spanish processed F & FR BFT exports to Japan during 2007 have been detected between EUROSTAT and Japan's 2007 Q1+Q2 and Q3+Q4 bi-annual reports BFT Trade data:

According to EUROSTAT, Spain would have exported to Japan during 2007 a total of **5.660.500,00 Kgs.** of processed F&FR BFT, corresponding to some \approx **4.796.814,35 Kgs.** (W/RW)⁶¹

According to Japan's 2007 Q1+Q2 and Q3+Q4 bi-annual reports, Spain would have exported to Japan during 2007 a total of **3.846.267,79 Kgs.** of processed F&FR BFT, corresponding to some \approx **4.097.495,56 Kgs.** (W/RW)

Though an odd **699.318,79 Kgs.** difference between equivalent W/RW in both EUROSTAT and Japan's 2007 Q1+Q2 and Q3+Q4 bi-annual reports, is to be noted, we have conservatively chosen to compute Japanese BFT Trade data only, thus in accordance and consistency with general methodology rules, as explained in Chapter 5. of this document.

Accordingly, (See Tables: 12. A. to AE) Spain would have exported a total of **7.528.771,79 Kgs.** of processed BFT corresponding to some \approx **8.273.455,21 Kgs.** (W/RW) during 2007.

As stated in Chapter 2. and according to an estimation carried out by ATRT,SL in 2006, the volume of live BFT having been inputted into Spanish tuna ranches that year, amounted to \approx **3.866.000,00 Kgs.** (W/RW)⁶²

According to Japan and USA's Q3+Q4 2006 bi-annual reports, **745.930,50 Kgs.** of PS BFT, corresponding to \approx **717.764,29 Kgs.** (W/RW) of ranched live-tuna, were exported during the period July to December 2006. The origin (Fishing & Primary Exporting Country) of all exported **745.930,50 Kgs.** PS BFT was Spain.

As stated in Chapter 2. \approx **824.690,96 Kgs.** (W/RW) of Spanish ranched BFT having been caught and transferred-live during Q3+Q4 2006, were also indeed slaughtered during Q3+Q4 2006, but exported neither to Japan nor to the USA.

According to Japan and USA's Q1+Q2 2007 bi-annual reports, **2.159.680,20 Kgs.** of PS BFT, corresponding to \approx **2.023.544,60 Kgs.** (W/RW) of ranched live-tuna, were exported during the period January to June 2007. The origin (Fishing & Primary Exporting Country) of all exported **2.159.680,20 Kgs.** PS BFT was Spain.

As also stated in Chapter 2. and according to Industry reports, some \approx **300.000,00 Kgs.** (W/RW) of live-caged-BFT, having been caught and transferred-live during Q3+Q4 2006 in one of Spain's Tuna ranches, were not slaughtered during the period January to June 2007, thus generating an carry-over to Q3+Q4 2007.

⁶¹ Source: EUROSTAT. Ref. Data-k2049024.xls 1, date of extraction: April 15th 2008. See Ref. Doc. 022.

⁶² Spain Fisheries Authority's recently released data, **2.712.914,00 Kgs.** (W/RW) of live BFT were inputted into Spanish tuna ranches during 2006, of which **1.288.989,00 Kgs.** (W/RW) were caught by Spanish flagged Tuna PS vessels, operative during the 2006 Summer fishing season in the Balearic Islands fishing grounds. **1.423.925,00 Kgs.** were imported live from France and Italy.

It is therefore safe to state that all live-BFT having been inputted into Spanish tuna ranches during 2006 were either slaughtered and marketed during Q3+Q4 2006 and Q1+Q2 2007, or as in the case of previously mentioned **≈ 300.000,00 Kgs.** (W/RW) carried-over to Q3+Q4 2007.

≈ 3.866.000,00 Kgs. (W/RW)	Live BFT having been inputted into Spanish tuna ranches in 2006.
- ≈ 717.764,29 Kgs. (W/RW)	Ranched live-BFT, exported to Japan during Q3+Q4 2006.
- ≈ 824.690,96 Kgs. (W/RW)	Ranched live-BFT, exported other than to Japan during Q3+Q4 2006.
- ≈ 2.023.544,60 Kgs. (W/RW)	Ranched live-tuna, exported during Q1+Q2 2007.

= ≈ 300.000,15 Kgs. (W/RW)	Live-BFT carried-over to Q3+Q4 2007.

As stated previously, Spain would have exported a total of **≈ 8.273.455,21 Kgs.** (W/RW) of processed BFT during 2007. (See Tables: 12. A. to AE) of which it would be safe to state that:

- **≈ 2.023.544,60 Kgs.** (W/RW) Correspond to BFT having been caught during 2006 Ranched live-tuna, exported during Q1+Q2 2007,
- **≈ 300.000,15 Kgs.** (W/RW) Correspond to Live-BFT carried-over to Q3+Q4 2007

were exported and therefore some exported **≈ 5.949.910,46 Kgs.** (W/RW) of BFT during 2007, are fully attributable to catches by Spanish fishing vessels during 2007's fishing season ending September 17th 2007 and/or to re-exports of non Spanish caught BFT during 2007.

≈ 8.273.455,21 Kgs. (W/RW)	Spain's total exports of processed F&FR BFT during 2007.
- ≈ 2.323.544,75 Kgs. (W/RW)	Spain's 2007 total exports of ranched BFT caught during 2006.

= ≈ 5.949.910,46 Kgs. (W/RW)	Spain's 2007 total exports of processed F&FR BFT attributable to catches by Spanish fishing vessels during 2007's fishing season ending September 17 th 2007 and/or corresponding to re-exports of non Spanish caught BFT.)

According to EUROSTAT, Spain imported during Q1+Q2+Q3 2007 from Portugal, Algeria and Morocco, **≈ 431.700,00 Kgs.** (W/RW) of F BFT under TARIC Code: 03023590. We choose to treat such imports as having been fully re-exported by Spain during 2007.⁶³

According to EUROSTAT, **606.900,00 Kgs.** (W/RW) of live-BFT have been reported as imports of live-BFT during 2007's fishing season ending September 17th 2007. Imports would have originated namely in France and Italy. We also choose to treat such imports as having been fully re-exported by Spain during 2007.

Finally and again according to EUROSTAT 2007 BFT Trade data, Spain would have also exported **254.500,00 Kgs.** (W/RW) of live-BFT, namely to Tunisia⁶⁴.

This would therefore imply that Spain's 2007 total exports of processed F&FR BFT fully attributable to catches by Spanish fishing vessels during 2007's fishing season ending September 17th, amounted to **≈ 5.165.810,46 Kgs.** that is, **≈ 402.399,54 Kgs.** short of its 2007 EU BFT TAC amounting to **5.568.210,00 Kgs.**

≈ 5.949.910,46 Kgs. (W/RW)	Spain's 2007 total exports of processed F&FR BFT attributable to catches by Spanish fishing vessels during 2007's fishing season ending September 17 th 2007 and/or corresponding to re-exports of non Spanish caught BFT.)
- 431.700,00 Kgs. (W/RW)	F BFT imports by Spain during 2007.
- 606.900,00 Kgs. (W/RW)	Live BFT imports by Spain during 2007.
+ 254.500,00 Kgs. (W/RW)	Live BFT exports by Spain during 2007.

= ≈ 5.165.810,46 Kgs. (W/RW)	Spanish caught BFT exports during 2007.

⁶³ Again according to EUROSTAT, Spain imported during Q1+Q2+Q3 2007 from France (**1.131.600,00 Kgs.**) and Italy (**172.400,00 Kgs.**) of F BFT under TARIC Codes: 03023510 and 03023590. In turn, Spain exported during Q1+Q2+Q3 2007 to France (**1.499.850,00 Kgs.**) and Italy (**309.000 Kgs.**) of F BFT under TARIC Codes: 03023510 and 03023590; thus not allowing F BFT imports from France and Italy to be computed as having been re-exported.

⁶⁴ Oddly enough such export by Spain of live-BFT to Tunisia remains unreported by Tunisia in its Q3+Q4 2007 Biannual Report BFT Statistical Document Program to ICCAT. Ref: ICCAT Circular 203/08. See annexed Ref. Doc. 028. Incidentally, Tunisia's mandatory Q1+Q2 2007 Biannual Report has not been yet made public or produced by ICCAT.

As stated before, and according to data from Spain's Ministry of Agriculture & Fisheries (MAPA-FROM)⁶⁵, Spain had an average apparent yearly BFT domestic consumption (BFT AYDC) of **2.889.570,00 Kgs.** during the period 2002 to 2005, thus fully confirming a well established purchasing and culinary habit for BFT by Spanish households and restaurants.⁶⁶

According to same MAPA-FROM data, Spain's BFT AYDC for 2005 was **4.098.500,00 Kgs.**

Both figures corresponding to processed BFT, we nevertheless choose to compute them as W/RW.

Spain's 2007 minimum and maximum total BFT catches would therefore have added-up to **≈ 8.055.380,46 Kgs. (W/RW)** and **≈ 9.264.310,46 Kgs. (W/RW)** respectively.

≈ 5.165.810,46 Kgs. (W/RW)	Spanish caught BFT exports during 2007.
+ 2.889.570,00 Kgs. (W/RW)	Spain's 2002-2005 average BFT AYDC (Source MAPA-FROM).

= ≈ 8.055.380,46 Kgs. (W/RW)	Spain's 2007 minimum total BFT catches.

≈ 5.165.810,46 Kgs. (W/RW)	Spanish caught BFT exports during 2007.
+ 4.098.500,00 Kgs. (W/RW)	Spain's 2005 BFT AYDC (Source MAPA-FROM).

= ≈ 9.264.310,46 Kgs. (W/RW)	Spain's 2007 maximum total BFT catches.

This would mean that Spain could have well exceeded its 2007 EU BFT TAC of **5.568.210,00 Kgs.** in a range of **2.487.170,46 Kgs.** to **3.696.100,46 Kgs.**

⁶⁵ FROM: Fondo de Regulación y Organización del Mercado de los Productos de la Pesca y Cultivos Marinos. Spain's average yearly BFT domestic consumption was calculated for the period 2002 to 2005. See Ref. Doc. 004.

⁶⁶ See Hábitos de Compra Conservación y Consumo de los Productos Pesqueros en la Población Española, Julio 2005. Ministerio de Agricultura, Pesca y Alimentación. FROM. Ref. Doc. 005.

4.2. **A refined estimation of BlueFin Tuna catches by Spain during 2007 based on Spain's 2007 latest BFT catch reporting and Spain's 2007 officially reported imports & exports of live & processed BFT**

4.2.1. According to Industry sources⁶⁷, Spanish NE Atlantic Trap nets would have caught **1.341.141,00 Kgs.** (W/RW) of BFT during 2007, the detail of which follows.

Almadraba Cabo Plata	297.039,00 Kgs.
Almadraba Punta Atalaya	368.848,00 Kgs.
Almadraba de España	214.265,00 Kgs.
Almadrabas (Pesquerías de)	460.989,00 Kgs.
TOTALS:	1.341.141,00 Kgs.

Yet and according to Japan's Q1+Q2 and Q3+Q4 2007 bi-annual reports (See Tables: 12. A. to AE) \approx **1.418.308,12 Kgs.** (W/RW) of EA TRAP FR BFT were exported to Japan during 2007: \approx **791.474,29 Kgs.** (W/RW) during Q1+Q2 2007 and \approx **626.833,83 Kgs.** (W/RW) during Q3+Q4 2007.

As in the case for 2006, it would be safe to state that those \approx **1.418.308,12 Kgs.** (W/RW) exported to Japan during 2007, would correspond to 86,37% of Spain's EA TRAP BFT total yearly 2007 production, thus estimated at \approx **1.642.130,52 Kgs.** (W/RW)

Also and according to USA's Q1+Q2 2007 bi-annual report, **2.831,00 Kgs.** of MED TRAP BFT, corresponding to \approx **3.538,75 Kgs.** (W/RW) of live BFT, were exported by Spain to the USA during Q1+Q2 2007. We choose to conservatively compute such export as Spain's total 2007 MED TRAP BFT production.

Spain's total 2007 TRAP BFT production would thus amount to: \approx **1.645.669,27 Kgs.** (W/RW)

\approx 1.642.130,52 Kgs. (W/RW) Spain's estimated EA TRAP BFT total yearly 2007 production
+ \approx 3.538,75 Kgs. (W/RW) Spain's estimated MED TRAP BFT total yearly 2007 production

= \approx 1.645.669,27 Kgs. (W/RW) Spain's estimated TRAP BFT total yearly 2007 production

4.2.2. According to Industry sources⁶⁸, the NE Atlantic Spanish-Basque Arrantzale bait-boat fleet, has reported total BFT catches for 2007 of **1.362.815,00 Kgs.** (W/RW)

As in the case for 2006, it would be safe to state that 85% of such production corresponding to \approx **1.158.392,75 Kgs.** (W/RW) would have been exported namely to France during Q2+Q3 2007.

4.2.3. According to various reports by Japanese BlueFin Tuna traders, the 2007 BFT stocked biomass in Spanish tuna ranches corresponded to \approx **3.865.000,00 Kgs.** (W/RW)

According to an estimation carried out by ATRT,SL in 2007, the volume of live BFT having been inputted into Spanish tuna ranches that year, amounted to \approx **3.865.000,00 Kgs.** (W/RW) the distribution of which was:

⁶⁷ OPP51.

Tuna Farms of Mediterráneo:		≈ 75.000,00 Kgs.
Viveros Marinos San Pedro:		0,00 Kgs.
Atunes de Mazarrón:		≈ 700.000,00 Kgs.
		0,00 Kgs.

Total:		≈ 2.625.000,00 Kgs.
Tuna ranches in the autonomous region of Catalonia:		
Balfegó-Castells:		≈ 1.200.000,00 Kgs.
Tuna ranches in the autonomous region of Andalusia:		
Nature Pesca:		40,00 Kgs.

Total inputted BFT (W/RW) into Spanish Tuna ranches in 2007		≈ 3.865.000,00 Kgs. (W/RW)

As stated previously, some ≈ **300.000,00 Kgs.** (W/RW) of live-ranched BFT in one of Spain's Tuna ranches, correspond to a carry-over of live-ranched BFT, caught during 2006 and not having been slaughtered during Q1+Q2+Q3 2007.

According to EUROSTAT, some **606.900,00 Kgs.** (W/RW) of such live-BFT have been reported as imports of live-BFT. Imports would have originated namely in France and Italy.

This would mean that some ≈ **2.958.100,00 Kgs.** (W/RW) of Spanish PS caught BFT were transferred live into Spanish tuna ranches.

Finally and again according to EUROSTAT 2007 BFT Trade data, Spain would have also exported **254.500,00 Kgs.** (W/RW) of live-BFT, namely to Tunisia.⁷⁰

Oddly enough, no other record of PS caught and transferred live-BFT exports by two of Spain's purse seiners in the Eastern Mediterranean during the 2007 BFT Summer fishing season has yet been reported and/or made public. (See Picture 9.) The end of the 2007 BFT fishing season was on June 30th 2007. Any live-BFT transfer into cages by these two vessels should have therefore taken place before such date and reported as such in a timely fashion.

Such two PS vessels are thought to have used at least two Spanish registered tuna spotting aircrafts, operative both from the airports of Paphos, Cyprus and Alexandria, Egypt. (See Pictures 10. and 11.)

As stated before and again to the best of our knowledge, Cyprus does not operate a single BFT PS vessel and yet according to Japan's Bi-annual BFT Statistical report for Q3+Q4 2007, Cyprus exported **939.530,00 Kgs.** of MED PS FR RD ranched BFT.

Cyprus and Japan are yet to confirm the state flag origin of the PS fishing vessels that did catch such important tonnages, declared by Japan as having been caught by Cyprus.

⁶⁹ According to Mr. Antonio Cerdá, Fisheries & Aquaculture Secretary of the Autonomous Region of Murcia, total 2007 ranched BFT production amounted to **2.757.000,00 Kgs.** Ref: Plan Estratégico Regional para la Acuicultura 2007-2013, Region de Murcia.

⁷⁰ Oddly enough such export by Spain of live-BFT to Tunisia remains unreported by Tunisia in its Q3+Q4 2007 Biannual Report BFT Statistical Document Program to ICCAT. Ref: ICCAT Circular 203/08. See annexed Ref. Doc. 028.

Though we suspect that part of the live-BFT ranched in Cypriot Tuna ranches was effectively caught by Spanish BFT PS vessels, we nevertheless retain that Spanish PS fishing vessels may well have caught $\approx 3.212.600,00$ Kgs. (W/RW) during the 2007 BFT fishing season, all of which would have therefore been transferred live into Tuna ranches mainly in Spain but also abroad.

Such tonnage is fully in tune with data by the Spanish Federation of Fishing Organizations (FEOPE) of which all six Spanish BFT licensed PS vessels are members, and according to which, the annual average consolidated BFT catch of all such six PS vessels is $\approx 3.500.000,00$ Kgs. (W/RW)⁷¹

$\approx 2.958.100,00$ Kgs. (W/RW)	Spanish PS caught BFT transferred live into Spanish tuna ranches
+	
$\approx 254.500,00$ Kgs. (W/RW)	Spanish PS caught live-BFT, exported namely to Tunisia.

$\approx 3.212.600,00$ Kgs. (W/RW)	Spain's 2007 total BFT PS catches.

Such fish was eventually slaughtered and marketed during Q3+Q4 2007 and Q1+Q2 2008.

- 4.2.4. According to Mr. Andrés Cedrés, President of the Asociación de Productores de Túnidos de Lanzarote, quoted on local press reports August 28th 2007, total tuna catches by the Canary Island BB fishing fleet during 2006 would have amounted to $\approx 350.000,00$ Kgs.⁷²

According to SOIVRE⁷³ based in Las Palmas, no BFT was exported abroad during until July 30th 2007.

No trace of processed (F & FR) BFT exports from Canary Islands could be traceable in EUROSTAT for the period January-December 2007.

- 4.2.5. As stated in Chapter 2. Spain's MED LL fishing fleet caught $\approx 1.365.966,74$ Kgs. (W/RW) of BFT during 2006. Such amount implies that the 2006 average yearly BFT catch for every one of Spain's 66 Mediterranean longliners authorised to target BFT, would have amounted to a realistic, though conservative $\approx 20.696,46$ Kgs. (W/RW)

According to industry reports the 2007 average yearly BFT catch for every one of Spain's 66 Mediterranean longliners authorised to target BFT⁷⁴, would have amounted to $\approx 28.000,00$ Kgs. (W/RW) thus bringing the total BFT catch to an estimated $\approx 1.650.000,00$ Kgs. (W/RW)

Such an increase in BFT catches for such fishing fleet is attributable to the following reasons:

- o Due to an early PS BFT fishing season in Central Mediterranean, virtually no catches of small BFT were recorded by Spanish flagged PS vessels during the months of April and May 2007.
- o Due to the total early closure of the BFT fishing season to all PS vessels on June 30th 2007, only authorised Spanish fishing vessels to continue targeting MED BFT were MED LL <24m.

⁷¹ See Ref. Doc. 008.

⁷² See Ref Doc 012 & Ref Doc 013.

Picture 9. Spanish BFT PS vessels NUEVO ELORZ and NUEVO PANCHILLETA, seen at the Port of L'Ametlla de Mar, Tarragona, Spain, prior to their departure to Eastern Mediterranean before the 2007 BFT fishing started. Both ships called several times at Alexandria, Egypt for re-fuelling. Picture ©: Courtesy by: ATRT,SL.

Pictures 10.A & B: Spanish registered (EC-DKD) tuna spotting Cessna Skymaster 337 aircraft, operated by Sociedad Aeronáutica Peninsular SL. seen at Paphos Airport, Cyprus on May 5th 2007. EC-DKD was also seen at Malta Luqa Airport on April 26th 2007. Pictures ©: Courtesy by: ATRT,SL.

Pictures 11 .A & B: Spanish registered (EC-JZJ) tuna spotting Partenavia P-68B Victor Private23 aircraft, seen at Paphos Airport, Cyprus on May 5th 2007. According to Industry sources, these two aircrafts would also operate two other 2-3 seats high wing airplanes from Alexandria airport (Egypt), through their Egyptian shipping agency company: Lucky Dolphin Marine Services. Web Site: www.luckydolphin.com. Pictures ©: Courtesy by: ATRT,SL.

4.2.6. No Industry reports or official data related to BFT catches during 2007 for the following Spanish fishing fleets has yet been made public.

EC.ESP	AT.E	NE	Bait boat	BB	BB
EC.ESP-ES-CANT_ALB	AT.E	NE	Other surf.	TR	TROL
EC.ESP-ES-SWO	AT.E	NE	Longline	LL	LLHB
EC.ESP	AT.E	NE	Sport (HL+RR)	HL	HAND
EC.ESP-ES_SPOR	MEDI	MEDI	Sport (HL+RR)	SP	SPOR

Yet and according to Jose Miguel de la Serna (IEO, Málaga)⁷⁵ the yearly average BFT catch for the Spanish BB fishing fleet operative in the Strait of Gibraltar composed by 12 boats based in the Port of Tarifa and 17 boats based in the Port of Algeciras (Average 15 TRB, ≈ 150HP & LOA ≈ 14m) would amount to some ≈ **323.000,00 Kgs.**

Furthermore, Spain operates a fleet of artisan HL fishing boats (30 to 40 units, Average 10 TRB, ≈ 75HP & LOA ≈ 10m) operative in the Strait of Gibraltar (In 500m to 800m deep waters) during the months of July and August, with an average BFT seasonal catch of ≈ **65.000,00 Kgs.**

In the case of Sport (HL+RR), AT.E._TROL and EC.ESP-ES-SWO_LLHB, we have chosen to transpose 2006 reported catches for such fleets, to 2007 calculations, assuming that similar values will be reported by Spain to ICCAT-SCRS. Such values are highlighted in bright yellow in following Table 11.

4.3. Conclusions

Accordingly, Spain could have caught no less than ≈ **8.764.477,27 Kgs. (W/RW)** of BFT during 2007.

Fleet	Stock	Area	Spc Gear Grp	Gear Grp	Gear Code	Quantity in Kgs. (W/RW)
EC.ESP	AT.E	NE	Bait boat	BB	BB	323.000,00

EC.ESP-ES-MEDI_SPOR	MEDI	MEDI	Sport (HL+RR)	SP	SPOR	7.772,00
Total Mediterranean						4.873.910,75
Total North East Atlantic						3.890.566,52
Total						8.764.477,27

Table 11: Spain's 2007 estimated BFT catches by fishing gear, stock and area.

⁷⁵ Source: Conservación y desarrollo sostenible del Mar de Alborán: Elementos estratégicos para su futura Gestión. September 2007. UICN. See Ref. Doc. 024.

Such figure (\approx **8.764.477,27 Kgs.** W/RW) is consistent with previously calculated minimum and maximum total BFT catches by Spain in 2007 based on Spain's officially reported imports and exports of live and processed BFT: \approx **8.055.380,46 Kgs.** (W/RW) and \approx **9.264.310,46 Kgs.** (W/RW) respectively.

According to FIDES, Spain would have caught a total of **5.192.600,00 Kgs.** (W/RW) BlueFin Tuna during the period January 1st to July 30th 2007, that would be **375.619,00 Kgs.** below its 2007 EU BFT TAC of **5.568.210,00 Kgs.**, though Spain has since officially made public that its total 2007 BFT catches were only below **150.000,00 Kgs.** as of September 17th 2007.

Accordingly, Spain's estimated 2007 BFT over-harvest would amount to \approx **3.196.267,27 Kgs.** above its 2007 BFT EU TAC of **5.568.210,00 Kgs.**

Spain's 2007 BFT catch under-reporting to FIDES would amount to \approx **3.346.267,27 Kgs.**

Table 12. AE: Spain's exports of processed BFT during 2007.

5. Methodology

Recorded legitimate exports of fresh & frozen BFT by Spain to Japan, the USA, the EU, Korea and other destinations, have been analysed in an attempt to pinpoint the amount of legal, regulated and/or reported wild BFT having been caught by Spanish fishing vessels in NEA + MED from January 2006 to August 2007, included.

In order to assess the level of BFT catches during 2006 and 2007, a number of Contracting Parties' Statistical Document bi-annual reports were reviewed and data contained in such documents was fed into an MS Excel spreadsheet.

ICCAT-Antalya-Turkey's 20th Meeting has validated and approved 2006 BFT Trade and landing data relating to Contracting Parties submitted under Recommendation 06-13.⁷⁶

Utmost caution was taken in order to avoid double counting, that is, whenever a Contracting Party reported an import from Spain and that import was reflected as an export in another Statistical Document bi-annual report, then only the recorded import was logged.

Statistical Document bi-annual reports used for such exercise were:

Statistical Document bi-annual report by Korea:	ICCAT Circular: 1776-06
Statistical Document bi-annual report by Japan:	ICCAT Circular: 1847-06
Statistical Document bi-annual report by EU:	ICCAT Circular: 1929-06
Statistical Document bi-annual report by Thailand:	ICCAT Circular: 2096-06
Statistical Document bi-annual report by USA:	ICCAT Circular: 2157-06
Statistical Document bi-annual report by Turkey:	ICCAT Circular: 0025-07
Statistical Document bi-annual report by Croatia:	ICCAT Circular: 0228-07
Statistical Document bi-annual report by Tunisia:	ICCAT Circular: 0239-07
Statistical Document bi-annual report by Croatia:	ICCAT Circular: 0382-07
Statistical Document bi-annual report by Morocco:	ICCAT Circular: 0430-07
Statistical Document bi-annual report by USA:	ICCAT Circular: 0541-07
Statistical Document bi-annual report by EU:	ICCAT Circular: 0614-07
Statistical Document bi-annual report by Japan:	ICCAT Circular: 0627-07
Statistical Document bi-annual report by Thailand:	ICCAT Circular: 0630-07
Statistical Document bi-annual report by Turkey:	ICCAT Circular: 1040-07
Statistical Document bi-annual report by Korea:	ICCAT Circular: 1089-07
Statistical Document bi-annual report by Japan:	ICCAT Circular: 1951/07
Statistical Document bi-annual report by Tunisia:	ICCAT Circular: 203/08
Statistical Document bi-annual report by Japan:	ICCAT Circular: 500/08

We assume that all exports referred to in this document, were therefore backed by pertinent mandatory national and international documentation and permits, namely but not restricted to:

- Valid Highly Migratory Species International Trade Permits,
- Completed and submitted statistical documents or statistical document/re-export certificates,
- Sets for each shipment of the named specie,
- Completed and submitted summary reports of trade activity for the named specie,
- Compliance with all applicable record-keeping and reporting requirements.

Where appropriate, possible and/or necessary, values expressed relate to and only to Mediterranean Sea and North East Atlantic BFT exports, regardless the way in which it was caught or if the fish was priority fattened in tuna ranches.

References to WR/W correspond to Wild Round Weight.

Whenever the declared origin of the exported/imported BFT is stated as "**Farmed**" but reported fishing gear is "**n/a**", "**UNCL**" or "**OT**" we have assumed that fishing gear is "**PS**" as purse seining is the only fishing gear that allows BlueFin Tuna to be caught and transferred live into tuna ranching cages.

⁷⁶ See Table 11a Doc. No. COC-302/2007, Ref. Doc. 003.

Some experimental live BlueFin Tuna transferring from set nets: “**TRAP**” into ranching cages has nevertheless taken place.

However, this technique has been hardly used. Accordingly, whenever the declared origin of the exported/imported BFT is stated as “**Farmed**” and reported fishing gear is “**TRAP**” we have concurred that fishing gear is “**TRAP**”.

Further to reviewing and computing import and export data pertaining to Spanish exports of processed F & FR BFT, contained in the above mentioned Contracting Parties’ Statistical Document bi-annual reports, a general monthly search for 2006 and 2007 recorded exports of processed BlueFin Tuna by Spain to:

- Other BFT Fishing European Union member states,
- Other non BFT Fishing European Union member states,
- Non-Contracting Parties to ICCAT or ICCAT Contracting Parties not having surrendered Statistical Document bi-annual reports for 2006 and 2007,

was performed for the years 2006 and 2007.⁷⁷

TARIC statistical codes used for such search were:

- 03023510:** FRESH OR CHILLED BLUEFIN TUNAS "THUNNUS THYNNUS", FOR INDUSTRIAL PROCESSING OR PRESERVATION,
- 03023590:** FRESH OR CHILLED BLUEFIN TUNAS "THUNNUS THYNNUS" (EXCL. TUNAS FOR INDUSTRIAL PROCESSING OR PRESERVATION)
- 03034511:** FROZEN BLUEFIN TUNAS "THUNNUS THYNNUS" FOR INDUSTRIAL PROCESSING OR PRESERVATION, WHOLE
- 03034513:** FROZEN BLUEFIN TUNAS "THUNNUS THYNNUS" FOR INDUSTRIAL PROCESSING OR PRESERVATION, GILLED AND GUTTED

- 03041939:** FILLETS OF SALTWATER FISH, FRESH OR CHILLED (EXCL. SWORDFISH, TOOTHFISH, COD, FISH OF THE SPECIES BOREOGADUS SAIDA, COALFISH AND REDFISH)
- 03041999:** FISH MEAT "WHETHER OR NOT MINCED", OF SALTWATER FISH, FRESH OR CHILLED (EXCL. SWORDFISH, TOOTHFISH, FISH FILLETS AND FLAPS OF HERRING)
- 03042045:** FROZEN FILLETS OF TUNA "THUNNUS" AND OF FISH OF THE GENUS "EUTHYNNUS"

Spain’s monthly exports recorded on EUROSTAT for TARIC Codes: **03041038**, **03041939**, **03041999** and **03042045**, were retained and assumed as being processed filleted, loined and/or other Block presentation BFT, if and only if, the value in Euros per kilogram of a given monthly export to a given country was equal or superior (\geq) to **€8,00/Kgs**.

Exported “*Farmed*” BFT by any given country, reported by ICCAT Contracting Parties in their 2006 Statistical Document bi-annual reports pertaining to Q1+Q2 2006 (January to June 2006) is considered as having been caught during Q3 2005, ranched during Q3+Q4 2005 and Q1 2006, finally slaughtered, processed and exported to final destination during Q1 and Q2 2006.

⁷⁷ EUROSTAT Extractions 27/04.2007 & 28/11/2007.

Likewise, exported "Farmed" BFT by any given country, reported by ICCAT Contracting Parties in their 2007 Statistical Document bi-annual reports pertaining to Q1+Q2 2007 (January to June 2007) is considered as having been caught during Q3 2006, ranched during Q3+Q4 2006 and Q1 2007, finally slaughtered, processed and exported to final destination during Q1 and Q2 2007.

Finally, Trade (import & export flows) between Spain and final destination importing countries, were again cross-checked with a number of official sources, namely:

Estadísticas de Comercio Exterior de España, Agencia Tributaria. (Spain),
Base de Datos de Comercio Exterior de CS Cámaras. (Spain),
French Customs-Douanes Françaises (France),
OFIMER-Division Observatoire Economique Entreprise. (France),
ISTAT – CoeWeb (Italy),
NSO National Statistics Office & Ministry of Agriculture and Fisheries. (Malta),
National Marine Fisheries Service, Fisheries Statistics and Economics Division. (USA),
Japan Customs Services Trade Statistical Data. (Japan),
United States Department of Agriculture – Foreign Agriculture Service – U.S. Trade Imports by HS 10 digit codes,
Korea Customs Service. (Republic of Korea),

Statistical cross-checks between two or more statistical data sources have been performed where appropriate, possible and/or necessary. Such cross-checks have been noted for ease of reference.

Reviewed and cross-checked data contained in EUROSTAT BFT Trade Analysis for 2006 and 2007⁷⁸ was fed into the previously mentioned MS Excel spreadsheet that takes into account the following parameters:

Fishing & Primary Exporting Country,
Re-Exporting Country,
Final Importing Country,
Fishing Area,
Fishing Gear,
Point of Export or Last Point of Re-Export,
Product Type,
Product Shape,
Origin,
Quantity (Kgs.),
Conversion Factor Wild/Farmed,
Conversion Factor to Wild Round Weight,
Equivalent Wild Round Weight (Kgs.),
Statistical Doc Number,
Other Shape Description or TARIC Denomination,
Reference,
Period.

Where appropriate, possible and/or necessary, Conversion Factors⁷⁹ used to calculate BFT Wild Round Weight (W/RW) used for statistical analysis and calculations are:

Belly Meat	x10.28
Dressed Weight	x 1.25
Fillets	x 1.67
Loins	x 1.67
Gilled & Gutted	x 1.16
Others	x 2.00

In all cases, immediately inferior Conversion Factor is applied in case of doubt between two possibilities.

⁷⁸ Source: http://europa.eu.int/comm/taxation_customs/dds/en/tarhome.htm

⁷⁹ Source: Estimation of Unreported Catches by ICCAT, Victor Restrepo (ICCAT, Madrid) OECD I/U/U Workshop, Paris, 19-20 April, 2004.

To all purposes average Conversion Factor from ranched BFT weight to BFT WR/W used in this report is $\approx 1,185$.

According to industry sources, belly meat of 8% of wild long-lined and purse-seined BFT is exported on its own, since the rest of the meat is generally not suitable for the Japanese market.

Applying a x10,28 Conversion Factor to such product would therefore be safe, though a double counting may occur in the case that such belly meat is exported to Japan and the rest is exported or distributed to lesser choosier markets.

According to Industry Sources, the amount of ranched BFT belly meat exported to Japan has been historically minimal (less than 2%).

Applying a x10,28 Conversion Factor to farmed BFT belly meat would again be misleading in that there is no effective method to identify whether or not such product is accompanied by loins or fillets belonging to the same fish. Ranched BFT belly meat and loins may be exported separately thus possibly creating a double-count or over-estimation when converted into RR/W and/or WR/W.

Accordingly, we have chosen to compute BFT Belly Meat in most of our calculations as if Whole with a x 1 Conversion Factor, thus providing to our final results a conservative degree of statistical comfort.

6. Additional Notes

Following the adoption of the UN FAO International Plan of Action (IPOA) to Prevent, Deter and Eliminate Illegal, Unreported and Unregulated (IUU) Fishing in March 2001, on 28 May 2002⁸⁰, the European Commission presented a proposal for a “Community action plan for the eradication of illegal, unreported and unregulated fishing” (COM(2002) 180 final).

The plan proposed by the European Commission contains many excellent initiatives, but so far, translation into concrete actions has been very limited.

The Community Action Plan examines the loopholes in the current systems and proposes a number of changes to EU legislation and international initiatives regarding IUU fishing.

Although many of the measures proposed need to be pursued at international level, and therefore would require more time to be decided and implemented, some could be adopted by the EU within its own legislative system.

Action 14 in the EU action plan calls for “the definition of rights and responsibilities of port States with the following objective: to define the rights and responsibilities of port States regarding access for fishing vessels to port facilities in order to carry on business, transit or first marketing operations, involving fishery products coming directly from fishing grounds.”

The justification given for such an action is the fact that, according to the European Commission, “the rights and responsibilities of States on this matter are not defined in any international convention.

This legal vacuum encourages the existence of ports of convenience just as flags of convenience exist. The absence of international rules governing access to and controls at ports does not foster the development of international cooperation in this area. It serves, furthermore, as an alibi for countries which do not wish to be too rigorous to avoid checking the origin of products that sustain their port operations.”

In the third edition of the “Common Fisheries Policy compliance scoreboard”, the European Commission states that “It should be noted that Commission inspectors continue to observe failings in the control and enforcement activities of Member States, particularly in the monitoring of catches and landings. This means that undeclared landings, misreporting (reporting catches in a different geographical area from the one where the fish were actually caught) or under-reporting of catches can all go undetected.”

In 2003, the European Commission initiated an infraction procedure against Spain among others for lack of control in port.

⁸⁰ The Technical Consultation to Review Port State Measures to Combat Illegal, Unreported and Unregulated Fishing (Rome, Italy from 31 August to 2 September 2004), approved a Model Scheme on Port State Measures to Combat IUU Fishing. Although this scheme is voluntary, it does provide a good basis on which to improve the current situation in the port of Las Palmas and strengthen the EU Spanish legislations.

The model scheme proposes a series of measures to be adopted by port States, such as:

- Not to allow a vessel to use its ports for landing, transshipping or processing fish if the vessel which caught the fish is entitled to fly the flag of a State that is not a contracting or cooperating party of a regional fisheries management organization or has been sighted as being engaged in, or supporting, IUU fishing activities in the area of that particular regional fisheries management organization or in the waters under the jurisdiction of a relevant coastal State, unless the vessel can establish that the catch was taken in a manner consistent with the relevant conservation and management measures;
- Where there are clear grounds for believing that a fishing vessel has engaged in or supported IUU fishing in waters beyond the limits of its fisheries jurisdiction, refuse to allow the vessel to use its port for landing, transshipping, refuelling or re-supplying;

It also proposes that “in organizing the inspections, priority will be given to vessels flying flags of non-cooperating non-contracting Parties or vessels believed to have engaged in IUU fishing, while recognizing that inspection in port should be carried out on a non-discriminatory basis.”

Spanish Legislation on Port Inspection and Control and the Spanish Plan of Action on IUU Fishing Article 69 of Law 3/2001 on maritime fisheries require that ports of landing have the necessary means for an efficient exercise of control activities on maritime fishing.

In November 2002, Spain adopted a national plan of action against IUU fishing. It purports to:

- Elaborate registers of authorized vessels and lists of unauthorized or illegal vessels in the RFOs;
- To prohibit the admission into or departure from port, the access to port services or the landing or transshipping of catches, whenever there are indications of engagement in activities of illegal fishing and to develop a rapid response system for authorizing or refusing landings, simple mechanisms for the authorization of landing, adequate and efficient systems of inspection and procedures designed to prohibit, where appropriate, landing or transshipping.

During the course of this report's production in 2007, the authors were nevertheless able to ascertain the flagrant *hubbing* of an important number of IUU Tuna long liners as well as of fishing vessels suspected of IUU fishing practices, docked at the Ports of Las Palmas, Algeciras, Marin and Vigo.

None of such vessels are registered with ICCAT.

Almost all of FOC large scale long line vessels detected and identified at Spanish ports are operated by Spanish Fishing companies. All ships are potential catchers of Tuna and Tuna-like species undercover of engaging in different fisheries.

Whether Spanish Fisheries Authorities have investigated and/or reported the presence of such large scale long line fishing vessels to ICCAT⁸¹ or not, remains to be seen.

In order to illustrate their point, the authors of this report have chosen to reproduce a series of dated pictures of such vessels, obtained from various sources.

⁸¹ On May 8th 2006, ICCAT requested from all Contracting Parties for information on vessels which may be included on the ICCAT IUU List. See ICCAT Circular 874/06.

⁸² GLORIA BRASIL, previously flagged to Togo as ATLANTIC 052, under IRCS: CXZE, is Black-Listed by the Coalition of Legal ToothFish Operators (COLTO: www.colto.org) She was seen offloading ToothFish in Mauritius in December 2000. She returned again to unload in August and November of 2001, and March 2002. Atlantic 052 was owned by Uruguayan company Vakin SA. The vessel's Uruguayan Category D fishing licence, owned by Nielcor SA, was officially removed in January 2004. In November 2004 the vessel was renamed to GLORIA BRASIL and flagged to Togo. Her new owners are said to be the Vidal family from
