

muuse

THE FUTURE OF MULTIPLE USE

PROBLEM

50 years of consumptive behaviour has left our world in a fragile state

less than 9% of plastic ever created has been recycled

Bio-plastics

high cost and challenged by specialized back end processing

Re-cycling

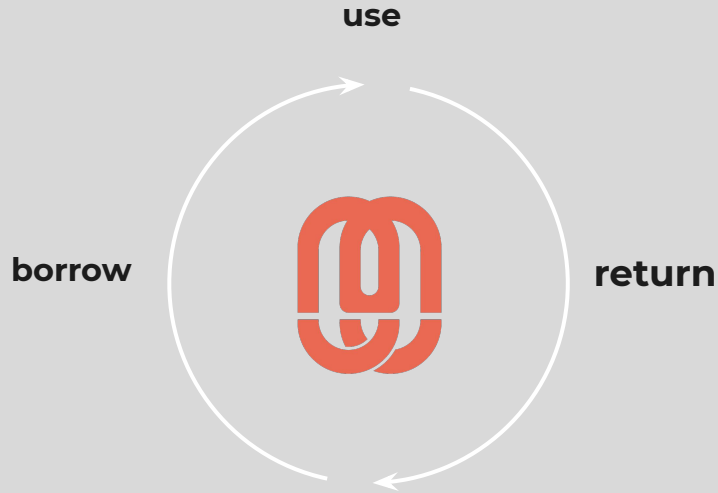

variability across geography; a broken and ineffective global system

Human health

global concern growing with microplastics and their detrimental effects

SOLUTION

MULTIPLE USE

a timely and immediate solution to eliminate single use waste

THE PRODUCTS TODAY

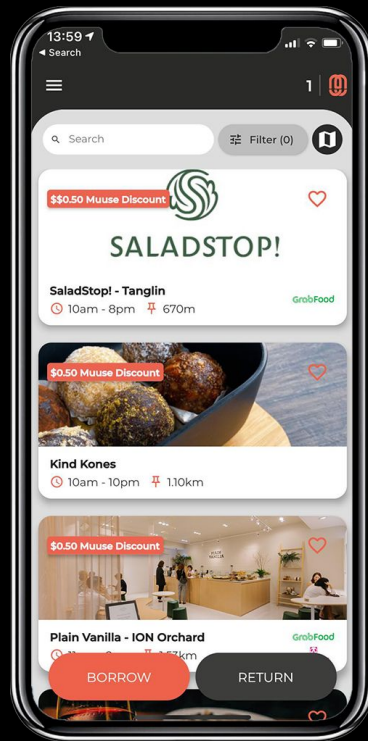

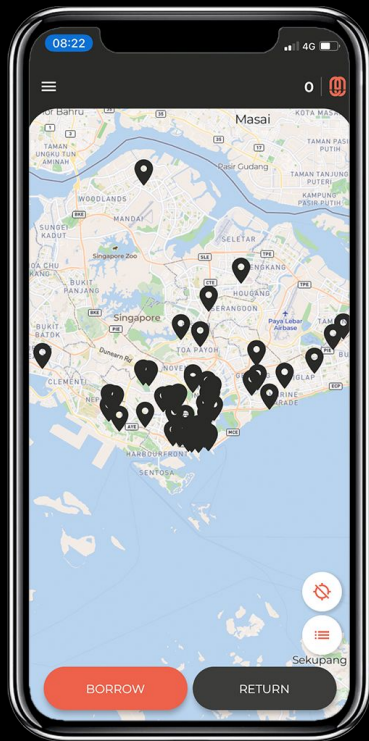

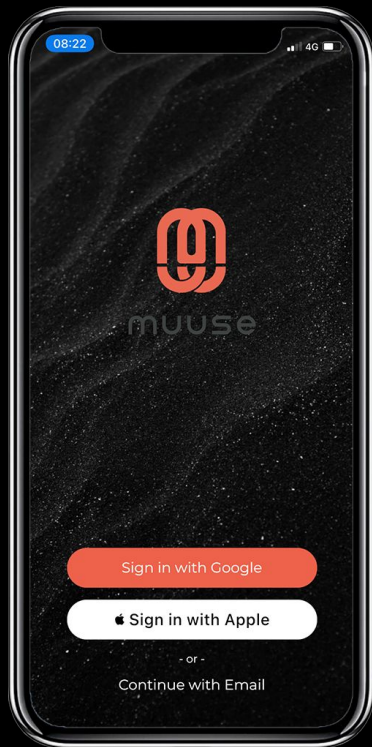

CUPS & TO GO CONTAINERS

uniquely tracked with QR
and RFID technology

THE PRODUCTS TOMORROW

THE PLATFORM

elegant
and familiar
experience

useful for
customers
and cafes

THE JOURNEY

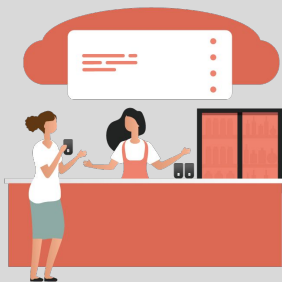

ON THE GO

HOME DELIVERY
